

# Supplement to Australian Standard

21.049 – 30 MARCH 2021

Supersedes: Version 3

## Supplement to Australian Standard AS 1742.6:2014, *Manual of Uniform Traffic Control Devices – Part 6: Tourist and service signs* Version 3.1

### General

Standards Australia has released AS 1742.6:2014, *Manual of Uniform Traffic Control Devices – Part 6: Tourist and service signs*.

All road agencies across Australasia have agreed to adopt the Austroads *Guide to Traffic Management* to ensure a level of consistency and harmonisation across all jurisdictions. The agreement means that the Austroads Guide and the Australian Standards which are referenced in them (including AS 1742.6:2014) become technical references for use within Transport for NSW ('Transport').

### Application of supplement

This supplement is issued to clarify, add to, or modify AS 1742.6:2014, *Manual of Uniform Traffic Control Devices – Part 6: Tourist and service signs*.

Transport implements the principles in the AS 1742.6:2014, with variations documented in this supplement under the following categories:

- **Departures (Legislative):** Transport practices that depart from AS 1742.6:2014, due to State-based legislative requirements.
- **Departures (Transport process):** Transport practices that depart from AS 1742.6:2014, due to Transport process.
- **Additional Information:** Technical information and practices set out in Transport authored guides, manuals, technical directions and/or other reference material, which enhance or complement the AS 1742.6:2014.

The variations listed in the Supplement prevail as the accepted standard for the Transport for NSW road network in New South Wales.

For other associated supplements see the [Transport for NSW, formerly Roads and Maritime \('RMS'\) supplement for Austroads Guide to Traffic Management](#) and [Transport for NSW supplement for Austroads Guide to Road Design](#).
