Users of concrete mixes must obtain the mix design report from the supplier (or a Concrete Mix Register contact) to confirm its suitability before use. Subsequent QA testing (as per the specification) still applies and any special conditions of registration must be observed when used on Roads & Maritime Services funded projects.

Users of concrete mixes must obtain the mix design report from the supplier (or a Concrete Mix Register contact) to confirm its suitability before use. Subsequent QA testing (as per the specification) still applies and any special conditions of registration must be observed when used on Roads & Maritime Services funded projects.
