

Licence No 4627 Publication of Monitoring Data  
M8 St Peters Interchange –10-16 Albert Street, St Peters

**Disclaimer:** In NSW, section 66(6) of the Protection of the Environment Operations Act 1997 (POEO Act) requires holders of environment protection licences to make their pollution monitoring data publicly available. Accordingly, the monitoring data below is provided to meet Transport for NSW (TfNSW) obligations under section 66(6) the POEO Act and any associated guidance documentation published by the Environment Protection Authority ([www.epa.nsw.gov.au](http://www.epa.nsw.gov.au)). TfNSW recognises that the intent of section 66(6) of the POEO Act is to improve the general public's access to information about the environmental performance of licensed facilities. To the best of TfNSW's knowledge, the data contained in this document is as accurate as possible. No material in this document is to be reproduced or published elsewhere in any form without TfNSW's prior written consent.

Landfill Gas Monitoring – Subsurface Gas

EPL No: 4627

Date of Sampling 8, 9, 20 and 22 October 2020

Date Received 18 November 2020

Date of Publication 4 December 2020

Subsurface landfill gas monitoring is usually a number of measurements taken over time with two events. The first event is initial measurements and the second event is measurements after the air space in the well has been pumped out. The highest measurement in the first (initial) and second (post-purge) events are reported in the following table.

Where the groundwater level is above the well screen the high water level can interfere with the monitoring equipment and no measurement/s can be taken.

A number of wells were inaccessible due to continuing construction activities blocking access that couldn't be resolved in time for the monitoring event.

Monitoring Point	EPA Identification Number	Frequency	Pollutant									
			Carbon Dioxide (%v/v)		Carbon Monoxide (ppm)		Hydrogen Sulphide (ppm)		Methane (%v/v)		Oxygen (%v/v)	
			Initial	Post Purge	Initial	Post Purge	Initial	Post Purge	Initial	Post Purge	Initial	Post Purge

NOTES:

EPL - Environment Protection Licence

%v/v - percentage by volume

ppm - parts per million

NR1 - no result 1 – the water level too high to take measurement

NR2 - no result 2 – high vacuum in well prevented measurement
