1 Intent of the MOU

The intent of this Memorandum of Understanding (MOU) is to have in place a policy and procedure to enable the Conditional Registration of Classic Vehicles. This MOU does not delegate any legislative or regulatory functions to any person or body outside of Roads and Maritime Services (RMS). The Conditional Registration of Classic Vehicles is referred to as the Classic Vehicle Scheme (CVS).

2 Definitions and general information

Applicant

The proposed registered operator of the Classic Vehicle, either a natural person or corporation.

All Applicants must be a current, financial member of a club affiliated with an Approved Organisation.

Application for Conditional Registration

The RMS form to be completed by the Applicant to apply for Conditional Registration in accordance with the provisions of road transport law and the CVS. Refer to sample in Section 7 – *Appendices*.

The Application for Conditional Registration, Classic Vehicle Declaration and Inspection report must be submitted together at a service centre by the Applicant or their authorised representative.

Approved Organisation

An organisation approved by RMS to participate in the CVS.

For an organisation to be considered for approval it must demonstrate to the satisfaction of RMS that it has the capacity to meet an appropriate level of professional and safety standards to provide sufficient administrative controls over the various aspects of the CVS.

Authorised Examiner

A person authorised by RMS to inspect vehicles at an Authorised Inspection Station (AIS).

Certificate of Approved Operations

The RMS document issued to the Applicant advising the Classic Vehicle's conditions of operation. Refer to sample in Section 7 – *Appendices*.

The Certificate of Approved Operations must be carried in the Classic Vehicle.

Certificate of Conditional Registration

The RMS document issued to the Applicant certifying that the Classic Vehicle is Conditionally Registered. Refer to sample in Section 7 – *Appendices*.

The Conditional Registration Label is attached to this document.

Classic Vehicle Agreement

The Approved Organisation's document, containing the CVS conditions and eligibility requirements and which form the agreement between the Approved Organisation and the Applicant.

Classic Vehicle

A vehicle:

- 30 years of age or older
- up to 3.5 tonnes Gross Vehicle Mass
- not being a plant vehicle or trailer, and
- complying with the relevant NSW vehicle standards.

Note: A replica vehicle or an Individually Constructed Vehicle (ICV) that is 30 years of age or older (based on the build completion date) are included. A significantly modified replica vehicle or an ICV must have a Compliance Certificate.

Classic Vehicle Declaration

The RMS form to be completed by the Responsible Person, declaring that:

- the vehicle is a Classic Vehicle, and
- the Applicant is a current, financial member of a club affiliated with an Approved Organisation.

See sample in Section 7 – *Appendices*.

The Classic Vehicle Declaration, not greater than 42 days old, must be submitted at a service centre by the Applicant or their authorised representative when establishing or renewing Conditional Registration.

Compliance Certificate

A Compliance Certificate issued by a Licensed Certifier on the RMS Vehicle Safety Compliance Certification Scheme (VSCCS), certifying that the Classic Vehicle complies with the relevant NSW vehicle standards.

If required, a Compliance Certificate must be provided with the Classic Vehicle Declaration to establish registration.

Important: It is the Applicant's responsibility to obtain a Compliance Certificate if the vehicle has been significantly modified.

Note: An Engineering Certification Scheme (ECS) certificate may be accepted instead of a Compliance Certificate if issued before 31 January 2012 and verified by RMS.

Conditional Registration

The RMS scheme that enables the registration of limited access vehicles under road transport law.

Vehicles approved under the CVS are eligible for Conditional Registration.

Conditional Registration Label

The RMS label issued to Conditionally Registered Classic Vehicles. Refer to sample in Section 7 – *Appendices*.

The Conditional Registration Label must be affixed to the lower left portion of the front windscreen, or to any fixed window on the left side of the Classic Vehicle.

Eligibility Committee

A committee established by an Approved Organisation comprising relevant and knowledgeable people, reporting to and chaired by the Responsible Person, to oversee the Approved Organisation's responsibilities within the CVS and ensure the eligibility of vehicles entering the CVS.

Industry Committee

A committee established, where there is more than one Approved Organisation, comprising each Responsible Person with a chair nominated from their number to act as Industry Representative, to ensure the CVS is properly applied throughout the industry.

Where an Industry Committee is established, individual Responsible Persons should bring issues to the Industry Committee to seek a resolution.

Where Industry Committee consensus cannot be reached on an issue or a particular matter cannot be brought before the Industry Committee for reasons of propriety, the Industry Representative may then escalate the issue to RMS if required and the individual Responsible Persons may liaise directly with RMS.

Industry Representative

The Industry Committee's nominated chair and Industry liaison with RMS.

Inspection

Classic Vehicles must be inspected by an Authorised Examiner and be issued a passed Inspection report to confirm that the vehicle is suitable for safe use and complies with the relevant NSW vehicle standards (including the permissible modifications as detailed in *Vehicle Standards Information No. 6 Light vehicle modifications* or the Compliance Certificate, if required).

- To **establish** a conditional registration, an Authorised Unregistered Vehicle Inspection report must be presented. This will consist of a Safety Check, Identity Check and Design Check.
- To **renew** a conditional registration, a Safety Check report must be presented.

The passed Inspection report, not greater than 42 days old, must be provided with the Classic Vehicle Declaration when establishing or renewing Conditional Registration.

Number-plate

Conditional Registration Number-plates, with the format of five numerals followed by a letter, eg '12345C' for vehicles; or four numerals followed by a letter, eg '1234C' for motorcycles.

Number-plates remain the property of RMS and must be surrendered to RMS within 14 days from when the registration is cancelled, or notification from RMS, or sale or disposal of the Classic Vehicle.

A Conditional Registration Number-plate must be permanently affixed to the front and rear of Classic Vehicles (rear only for motorcycles) so that the Number-plate is:

- in an upright position that is substantially parallel to the vehicle's axles, and
- not more than 1.3 metres above ground level, and
- not obscured, defaced or otherwise not legible, and
- the numbers on Number-plates must be clearly visible from any point that is up to 20 metres from the Number-plate, and within an arc of 45 degrees from the surface of the Number-plate above or to either side of the vehicle, and
- any cover on the Number-plate is clear, clean, untinted and flat over its entire surface, and has no reflective or other characteristics that would prevent the successful operation of a device approved for use under a law relating to the detection of traffic offences.

Responsible Person

The person nominated by an Approved Organisation to oversee the Approved Organisation's responsibilities within the CVS, liaise with RMS, and approve eligible Classic Vehicles.

The onus is at all times on the Applicant/registered operator/driver to provide evidence that the Classic Vehicle is being used in accordance with the Conditions of Operation.

5 Procedure

Application to the Approved Organisation

The Applicant must make an application to the Approved Organisation to have a Classic Vehicle considered for inclusion in the CVS.

The application must include the Inspection report and any other information the Responsible Person may need to validate the legitimacy of the request.

Review

The Eligibility Committee must review the application and advise the Responsible Person of its recommendation.

Inspection

The Responsible Person must ensure that the Applicant has obtained a passed Inspection report for the Classic Vehicle to confirm that the vehicle is suitable for safe use and complies with the relevant NSW vehicle standards (including the permissible modifications as detailed in *Vehicle Standards Information No. 6 Light vehicle modifications*), and complies with the Approved Organisation's vehicle criteria.

The Classic Vehicle must be inspected at least annually by an Authorised Examiner to ensure that the vehicle continues to be eligible.

The Inspection cannot be greater than 42 days old to establish or 6 months old to renew the Conditional Registration.

Acceptance

If the application meets all the requirements then the Responsible Person must complete the Classic Vehicle Declaration and provide this to the Applicant for submission to RMS.

Application to RMS

The following must be presented to a service centre to establish the Conditional Registration:

- Classic Vehicle Declaration completed by the Responsible Person not greater than 42 days old.
- Authorised Unregistered Vehicle Inspection report not greater than 42 days old (consisting of a Safety Check, Identity Check and Design Check).
- Compliance Certificate (if required).
- Vehicle Import Approval (if the vehicle is imported).
- Application for Conditional Registration completed by the Applicant.

The following must be presented to a service centre to renew the Conditional Registration:

- Classic Vehicle Declaration completed by the Responsible Person and not greater than 42 days old.
- Safety Check report not greater than 6 months old.
- The appropriate fee.

Transferring registration

The Conditional Registration of Classic Vehicles is not transferrable. If a Classic Vehicle is sold or disposed the Conditional Registration must be surrendered by the Applicant and the Number-plates must be surrendered to RMS. The vehicle acquirer must make a new application to the Approved Organisation and RMS as detailed above.

Converting to full registration

Classic Vehicles can be fully registered. However, the Conditional Registration and Number-plates must first be surrendered, and a new application for full registration presented to a service centre.

Sanctions and removal from the CVS

If it is determined that an Applicant/registered operator/driver has breached the Conditions of Operation, the Approved Organisation may determine that the Classic Vehicle and/or Applicant is no longer eligible under the CVS.

In these instances the Responsible Person may request that RMS suspend and/or cancel the Conditional Registration. Detailed information supporting the request must also be provided.

RMS may suspend and/or cancel the Conditional Registration of a Classic Vehicle if it is determined that an Applicant/registered operator/driver has breached the Conditions of Operation, or if otherwise required under road transport law.

If RMS determines that an Approved Organisation, Eligibility Committee member, Industry Committee member, Industry Representative, Responsible Person, or other Approved Organisation official or management staff member has breached the requirements of the CVS, then RMS may disqualify that Approved Organisation or person from participating in the CVS.

How to attach this label

Do not peel this label from the paper until you have been issued with a receipt number. Remove the old label, making sure the glass is clean and dry. Carefully peel the new label from the paper and stick it on to the inside of the windscreen or a fixed glass panel on the left hand side of the vehicle and smooth out to the edges. The details of the label are not to be obscured – DO NOT stick the label to antiglare film or the tinted section of the glass.

For motorcycles and trailers, put the label in a label holder and attach the holder on or next to your vehicle's number plate without obscuring the number plate details. For caravans and other trailers with a rear facing window, you may stick the label to the inside of the window as close to the number plate as possible.

Peel the label slowly to prevent tearing the paper backing sheet or the label. The purple cut out panel on the front must stay with the label.
