

Have your say – Safety improvements at intersection of Brisbane Water Drive, Jirrah Avenue and Koolinda Avenue, Point Clare

The NSW Government has provided \$200,000 this financial year for planning safety improvements at this location.

Roads and Maritime is seeking your feedback on a proposal to install traffic lights at the intersection of Brisbane Water Drive, Jirrah Avenue and Koolinda Avenue, Point Clare.

A route safety investigation completed in 2016 identified the proposed traffic lights as a priority project to improve road user safety on this busy section of Brisbane Water Drive. The project is part of a broader program of safety improvement work with a number of projects already completed or in development.

We have included a map to help better explain the proposal for the proposed traffic lights. The work for this project would include:

- Installing traffic lights and pedestrian crossings at the intersection of Brisbane Water Drive, Jirrah Avenue and Koolinda Avenue
- Widening Brisbane Water Drive to two lanes on the east side of the intersection and providing a new bus bay. The majority of widening would be within the existing road corridor but the project will require widening of the road reserve by about two metres into Fagan Park to provide a pedestrian path
- Removing the mid-block pedestrian crossing on Brisbane Water Drive about 60 metres west of the intersection
- Moving two bus stops near the intersection to a new designated bus bay near Fagan Park
- Removing a small number of trees on the edge of Fagan Park and others next to the intersection within the road reserve
- Changing no stopping zones around the intersection, including implementing a new no stopping zone on the south side of Brisbane Water Drive
- Installing new pedestrian paths and kerb and gutter along Brisbane Water Drive east of the intersection, about 100 metres on the north side to the new bus bay and about 150 metres down the south side of the widened road.

How can you give feedback?

We encourage you to send us your comments by **Friday 14 September 2018** to our Project Manager, Peter Talbot at peter.j.talbot@rms.nsw.gov.au or:

Peter Talbot
Roads and Maritime Services
Locked Bag 2030
Newcastle NSW 2300

We will carefully consider your feedback and continue to keep you updated as the project progresses. Work is expected to start on the project in late 2019.
