

Cabarita Wharf upgrade

Transport for New South Wales | January 2018

Work to upgrade Cabarita Wharf will start on Wednesday 14 February 2018. Ferry services will continue to operate to Cabarita during construction.

The NSW Government is upgrading Cabarita Wharf as part of the Transport Access Program.

Work to upgrade Cabarita Wharf will start on **Wednesday 14 February 2018** and take about six months to complete, weather and maritime conditions permitting.

Ferry services will continue to operate to Cabarita during construction. The existing wharf will be modified to allow ferry access. There will be some changes to the way customers access the wharf and wayfinding signage will be installed.

The Cabarita Wharf design has been developed following feedback from the community and aims to balance safety, accessibility, efficient ferry operations and, environmental and heritage impacts.

The final Review of Environmental Factors was on display for comment in November and December 2017. The Review of Environmental Factors and submissions report can be viewed at rms.nsw.gov.au/cabarita-wharf

The wharf upgrade will provide:

- ▶ capacity for additional ferry services
- ▶ protection from the wind, rain and sun
- ▶ improved seating and waiting areas
- ▶ improved safety for customers
- ▶ quicker and more efficient ferry boarding and disembarking
- ▶ effective wayfinding signage
- ▶ new lighting
- ▶ improved pedestrian, bus and vehicle access and movement around the interchange.

Car park upgrade

As previously advised, plans are being prepared separately for an upgrade of the existing car park. The land surrounding the car park has been identified to be an area of Aboriginal heritage significance. Further consultation with Aboriginal groups will be carried out before displaying the Review of Environmental Factors.
