

Cleveland Street safety improvements

May 2021

Thank you for your feedback on the proposed Cleveland Street safety improvements.

Transport for NSW is reviewing the Cleveland Street safety improvements project plan. On local roads we will be carrying out additional traffic counts and noise monitoring to help inform the project.

We listened to your feedback and these were your concerns:

- ▶ driver behaviour
- ▶ the potential for increased traffic in side streets
- ▶ pedestrian and cyclist safety

We will continue to keep the community informed as the project progresses.

To receive updates about this project, please email Cleveland@ltjv.com.au and state your preferred method of contact, SMS, email or both.

We listened to what you had to say and this is what we learnt.

We will do traffic and noise modeling before we make a decision. No date for construction has been made.
