

Proposed new and extended clearways on Delhi Road, Millwood Avenue, Fullers Road and Pacific Highway between North Ryde and Roseville

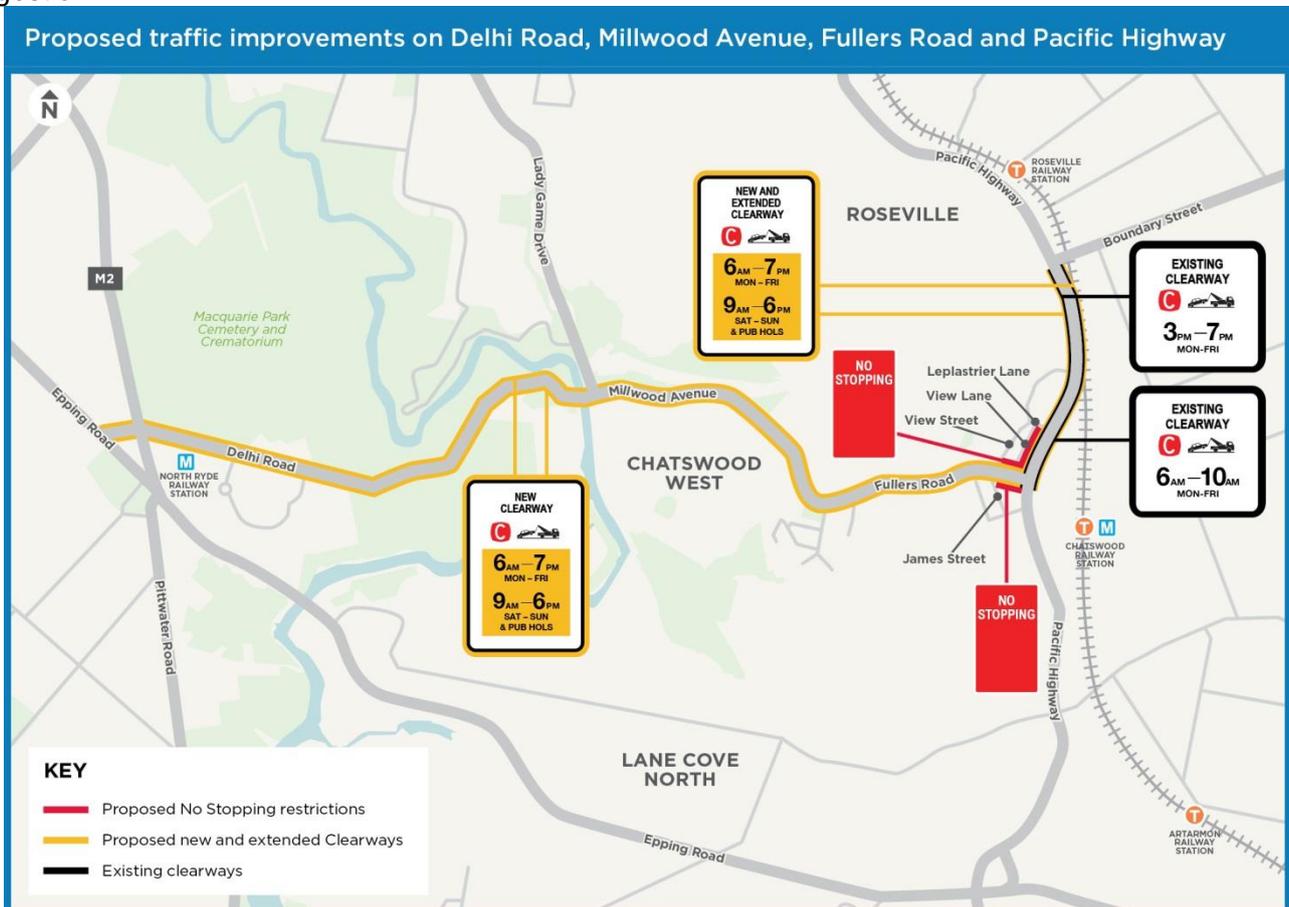

The NSW Government is funding this project as part of its \$121 million Clearways Program, which aims to reduce congestion and delays on Sydney's roads.

Roads and Maritime Services is proposing to introduce new weekday and weekend clearways on Delhi Road, Millwood Avenue and Fullers Road between Epping Road, North Ryde and the Pacific Highway, Chatswood.

We are also proposing to extend clearways on the Pacific Highway between Fullers Road, Chatswood and Boundary Street, Roseville.

The new and extended clearways will be between 6am to 7pm on weekdays and between 9am to 6pm on weekends and public holidays in both directions.

This clearway will connect to the existing clearways on Boundary Street and Epping Road and link to the M2 Motorway. It will improve journey times between Chatswood and Macquarie Park and reduce congestion.

What happens next?

Subject to feedback, the new and extended clearways are planned to be implemented in September 2019. We will inform you again before we start work.

If you have any questions about the proposal, please contact the clearways team on 1300 706 232 or clearways@rms.nsw.gov.au.

How will parking be affected?

The metered parking spaces and Truck Zone on Pacific Highway, north of Fullers Road will be removed. Existing parking bays on Millwood Avenue and Delhi Road will not be impacted by the clearways.

We propose to install No Stopping restrictions at the intersection of Fullers Road and Pacific Highway.

Businesses have customer parking spaces located within their premises. Metered street parking is located nearby on Railway Street, Day Street, McIntosh Street and Help Street.

How will the clearway affect me?

The proposed clearways would change the ability to park or pick up and drop off family, friends and deliveries along these roads. If you do not have a driveway, garage or carport on your property, local streets are available for you to park during the clearway hours, subject to any parking restrictions.

As clearways continue to be rolled out across Sydney, you, your family and friends will experience more efficient, safer, and more reliable journey times. This means less time in the car, and more time doing the things you enjoy.

What is a clearway?

A clearway is a section of road where stopping and parking is not allowed during designated times that are shown on a clearway sign. Clearways are put on state roads where traffic is often heavy and congested. They help keep vehicles moving by making all lanes available to motorists.

The only exception is the stopping of buses and taxis dropping off or picking up passengers as well as emergency vehicles and postal vehicles accessing a public post box.

What are the key benefits of clearways?

Clearways:

- reduce congestion by making an additional lane available to traffic
- improve journey times, allowing drivers to get to their destination sooner and more reliably
- improve safety by removing parked vehicles from the kerbside lane
- have an immediate positive impact on traffic flow as it uses existing road space for the movement of vehicles
- improve the efficiency of intersections along the corridor, as all lanes are used.
