

Investigation work on Devlin Street, Ryde from Monday 18 November

The NSW Government is funding this project as part of its \$300 million Urban Roads Pinch Point Program to reduce congestion and improve travel time on Sydney's busiest corridors.

Investigation work on Devlin Street, Ryde

Motorists travelling through Ryde experience delays at the Devlin Street, Blaxland Road and Parkes Street intersection, especially during peak periods. To improve this we are upgrading the intersection by adding an additional northbound lane from Victoria Road to Blaxland Road.

This will improve travel times for motorists using the intersection particularly during peak periods, reduce queue lengths and traffic delays due to a better flow of traffic through the intersection and improve safety at the intersection.

To prepare for this work, we need to carry out investigation work on Devlin Street, Ryde. This work will include creating holes in the road surface and verge for soil testing. The holes will be filled in once we have completed our work.

Our work schedule

We will be on site for **three night shifts** between **Monday 18 November** and **Friday 29 November**, weather permitting.

Our work hours will be between **8pm** and **5am** from **Sunday** to **Friday**.

Contact

If you have any questions or would like to receive email notifications of project updates, please contact us on 1800 572 004 or pinchpoint@rms.nsw.gov.au

For more information on our projects, visit rms.nsw.gov.au.

Thank you for your patience during this important work.

How will the work affect you?

Our work may be noisy at times but we will do everything we can to minimise its impact.

To minimise disruption to residents, businesses and road users, we will not work more than **two nights** in any week.

Traffic changes

There will be some temporary traffic changes during our work hours to ensure the work zone is safe. Lane closures may be in place and may affect travel times. Please keep to speed limits and follow the direction of traffic controllers and signs.

For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

What is a Pinch Point?

A pinch point is a traffic congestion point, either at an intersection or on a short length of road, where a traffic bottleneck exists. They cause traffic build-up and travel delays at these spots and on the wider road network.

More than \$825 million has been committed to the pinch point program. Each project will ease congestion, reduce traffic delays and improve travel times on Sydney's major roads.

Translating and Interpreting Service

If you need an interpreter, please call the Translating and Interpreting Service (TIS National) on **131 450** and ask them to telephone Roads and Maritime Services on 1800 572 004

Arabic
