**BUILDING OUR FUTURE**

# Site compound at 166a Epping Road, North Ryde

16 May 2022

The Australian and NSW Governments are taking action to improve Sydney's road network by easing congestion, improving traffic flow, travel times and road safety.

Transport for NSW is finalising the addition of a fourth northbound lane on Devlin Street, Ryde between Victoria Road and Blaxland Road, with project completion in June 2022. During our work, we used 166a Epping Road, North Ryde as a site compound to store materials and equipment.

## Demobilisation

- From Monday 23 May, we will begin to remove all equipment from the site compound including bins and containers, during the day between **7am** and **6pm**
- Construction vehicles will be entering and exiting the site compound more frequently during this time
- We will continue to turn off machines and vehicles when not in use and use water to control dust as needed, to minimise disturbance to our neighbours when we use the site.

We appreciate your patience throughout the project and thank you for supporting our work.

## Contact us

We will continue to be contactable as we complete the final work activities. If you have questions or want to talk about a project concern, please contact us:
