

New clearways on Elizabeth Drive

Between M7 Motorway, Cecil Hills and Hume Highway, Liverpool

Project Update | May 2018

The NSW Government is funding this project as part of its \$121 million Clearways Program, which aims to reduce congestion and delays on Sydney's roads.

Roads and Maritime Services will install new clearways on Elizabeth Drive between M7 Motorway, Cecil Hills and Hume Highway, Liverpool. We have included a map to show the clearway hours and location of the new clearways.

The new clearways will replace the existing 'No Stopping' and sections of unrestricted parking on Elizabeth Drive. The bus zones and transitways will continue to operate with no change.

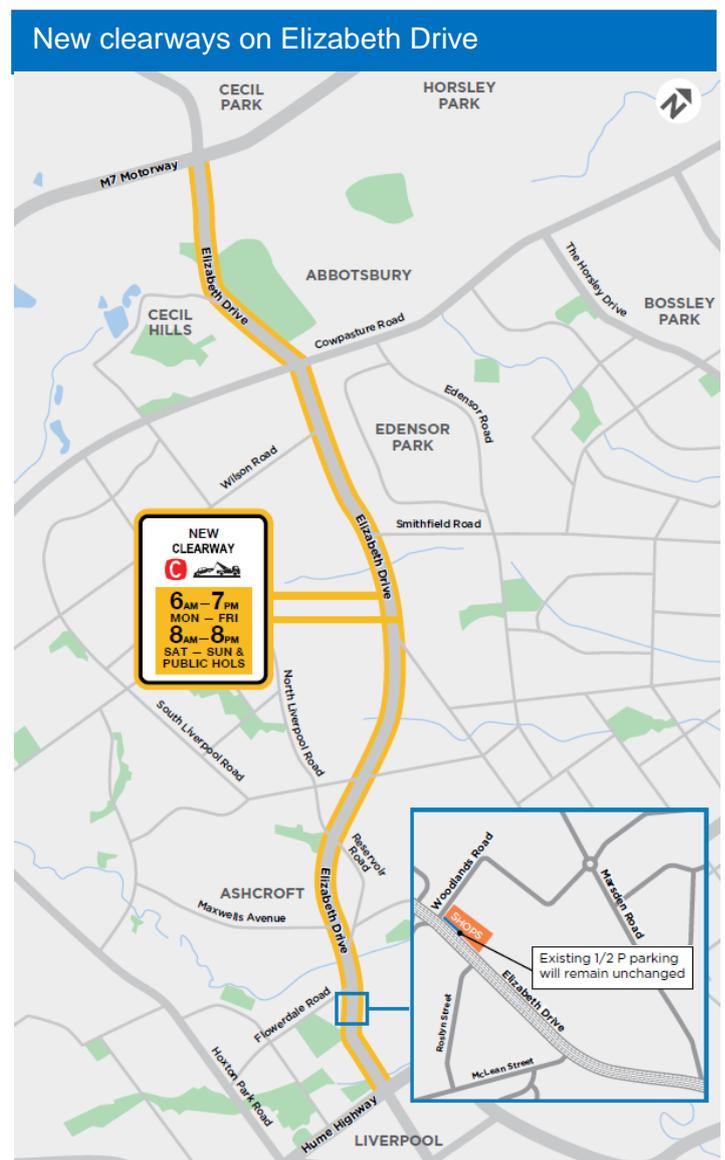

No changes will be made to the indented parking in front of shops at the intersection of Woodlands Road and Elizabeth Drive, as shown on the map. The 1/2 P parking in this bay will continue to operate from 6am to 6pm, Monday to Sunday.

Alternate business parking

Roads and Maritime investigations showed there is sufficient parking available in side streets close to where parking would be removed from Elizabeth Drive when the new clearways are installed. We are asking for your feedback on this alternate parking.

Talk to the clearways project team

On **Sunday 3 June**, the project team will be available to discuss the project at **Macquarie Mall, Liverpool** from **10am to 1pm**. Macquarie Mall is located at **Macquarie St, Liverpool**. We invite you to come and speak to us about the new clearways and alternate parking.

As a resident or visitor, what does this mean for me?

The new clearways will change the ability to park or pick up and drop off family, friends and deliveries in front of properties along Elizabeth Drive. If you currently live or visit this section of Elizabeth Drive, you will need to reconsider where to park during the clearway hours.

If you do not have a driveway, garage or carport on your property, local streets are available for you to park during the clearway hours subject to any council restrictions. Outside the clearway hours, existing parking restrictions will remain in place.

As clearways continue to be rolled out across Sydney, you, your family and friends will experience more efficient, safer, and more reliable journey times. This means less time in the car, and more time doing the things you enjoy.

What is a clearway?

A clearway is a section of road where stopping and parking is not allowed during the times shown on the clearway sign. Clearways are put on key arterial roads where traffic is often heavy and congested. They help keep vehicles moving by making all lanes available to motorists. The only exception is the stopping of buses and taxis dropping off or picking up passengers as well as emergency vehicles.

The new clearways will help to improve traffic flow and reduce delays by removing parking and allowing us to tow vehicles that stop illegally or break down.

If you park in a clearway during the clearway hours, you risk being fined and your vehicle can be towed.

To report a vehicle parked in a clearway or if your vehicle has been towed from a clearway, please call the Transport Management Centre on 131 700.

Key benefits

Clearways:

- reduce congestion by making an additional lane available to traffic
- improve journey times, allowing drivers to get to their destination sooner and more reliably
- improve safety by removing parked vehicles from the kerbside lane
- have an immediate positive impact on traffic flow as it uses existing road space for the movement of vehicles
- improve the efficiency of intersections along the corridor, as all lanes are used.

What happens next?

We invite your feedback on alternate business parking by **Tuesday 12 June 2018**.

Please send your comments to clearways@rms.nsw.gov.au or call **1300 706 232**.

We will consider your feedback and update you as the project progresses.
