

## Project update – Work on hold at the intersection of Beecroft Road and Carlingford Road, Epping

The NSW Government is funding this project through the Housing Acceleration Fund to improve traffic flow and reduce congestion to support population growth in the area in the future.

Roads and Maritime Services is delivering this project, which involves upgrading the Beecroft Road and Carlingford Road intersection. This project will result in improved traffic flow, reduced traffic congestion with new turning and slip lanes and improved pedestrian access.

### Progress so far and the next stage

We have finished pavement work on the northbound lane, the retaining wall and work on the drains. The work still to be done includes:

- landscaping
- reinstating the footpath near the train line
- removing some services that are no longer needed
- some additional pavement work
- final road marking.

### Next steps

Work is currently on hold while we finalise plans for utility relocation work. We expect to be back on site in late 2017 or early 2018 for an additional **40 shifts**.

We will write to you again before restarting work.

### Contact

If you have any questions, please contact our delivery partner DM Roads on 1800 332 660 or email [enquiries\\_nsw@dmroads.com.au](mailto:enquiries_nsw@dmroads.com.au).

Thank you for your patience during this important work.
