

Work continues on the Macquarie Park Bus Priority Improvements – Epping Road and Herring Road

Transport for NSW | April 2021

The Australian and NSW Governments are investing in Macquarie Park to improve public transport and the road network.

Transport for NSW will continue work to provide a dedicated northbound bus lane on Herring Road between Epping Road and Waterloo Road. Our improvements also include upgrades to three intersections along this section of Herring Road.

Our work will support Macquarie Park's growth, ensuring we can meet the area's future transport needs. We aim to complete this project in late 2022.

What is happening next?

Over the next few months, on Herring Road we will:

- install a temporary roundabout and median at the Ivanhoe Place intersection while we construct the new lanes and install traffic lights
- widen the southbound lane and build a new kerb near the Ivanhoe Place intersection to make space for the extended bus lane
- install additional stormwater drains between Ivanhoe Place and Waterloo Road
- install a temporary median between Windsor Drive and Waterloo Road
- continue gas, water, telecommunications and electricity relocations.

Keep up to date on the progress of our work in Macquarie Park by joining our monthly email update. Sign up via the project website nswroads.work/macpark.

Our work schedule

We carry out most of our work at night to minimise traffic disruption and reduce safety risks to the workers, pedestrians and road users.

During our upcoming work between **Sunday 18 April** and **Friday 9 July**, we will be on site for **58 night shifts** and **20 day shifts**.

Our night work hours will be between **8pm** and **5am** from **Sunday to Friday**. Our day work hours will be between **7am** and **6pm** from **Monday to Friday** and between **8am** to **1pm** on **Saturday**. We will not work on public holidays.

How will the work affect me?

We will make every effort to minimise noise and disruption. We will complete noisier tasks by **midnight**. Where possible, we will use noise blankets, direct noise-generating equipment and lights away from properties and turn vehicles and machinery off when not in use.

Traffic changes

A temporary footpath will be in place on part of Herring Road to safely detour pedestrians away from our work zone.

There will also be temporary traffic changes during our work hours to ensure the work zone is safe. This will include lane closures which may affect travel times. Pedestrian access will be maintained at all times. Please keep to speed limits and follow signs and traffic controllers' directions. For the latest traffic updates, you can call 132 701, visit livetraffic.com or check the Live Traffic NSW App.

Stimulus funding

This project is part of a \$240 million investment by Australian and State Governments to fast-track 11 congestion-busting projects as part of the plan to stimulate the economy as it recovers from the COVID-19 pandemic.

Contact us

To ensure we protect public health and safety during the Coronavirus outbreak, we need to change the way we engage with the community. Please be assured we will continue to respond to any questions or concerns you may have about our work.
