

Princes Highway, Gerringong upgrade

Traffic changes and out of hours work on the Princes Highway between Sims Road and Willowvale Road to progress construction of the new northbound lanes.

Out of hours work and traffic changes on the Princes Highway north of Sims Road

Out of hours work is required on the Princes Highway north of Sims Road to construct a section of temporary road for future traffic changes. The work involves excavating the existing road shoulder and constructing pavement. To minimise the impact on motorists work will take place at night from Monday 3 February until Friday 7 February between 6pm and 7am, weather permitting.

During the work the Princes Highway in this area will be reduced to one lane. Stop/slow traffic control and a reduced speed limit of 40km/h will be in place. Lighting and advanced signage will help direct motorists. Please see overleaf location map showing the work area.

Changed access to Sims Road and Alne Bank Lane

The intersection of Sims Road and the Princes Highway will be closed from Monday 3 February 2014, weather permitting. Access to Sims Road and Alne Bank Lane will now be via Willowvale Road.

Motorists will use what will be the access road for Sims Road and Alne Bank Lane. Please see overleaf location map showing the changes. Clear signage will be in place to assist residents and motorists.

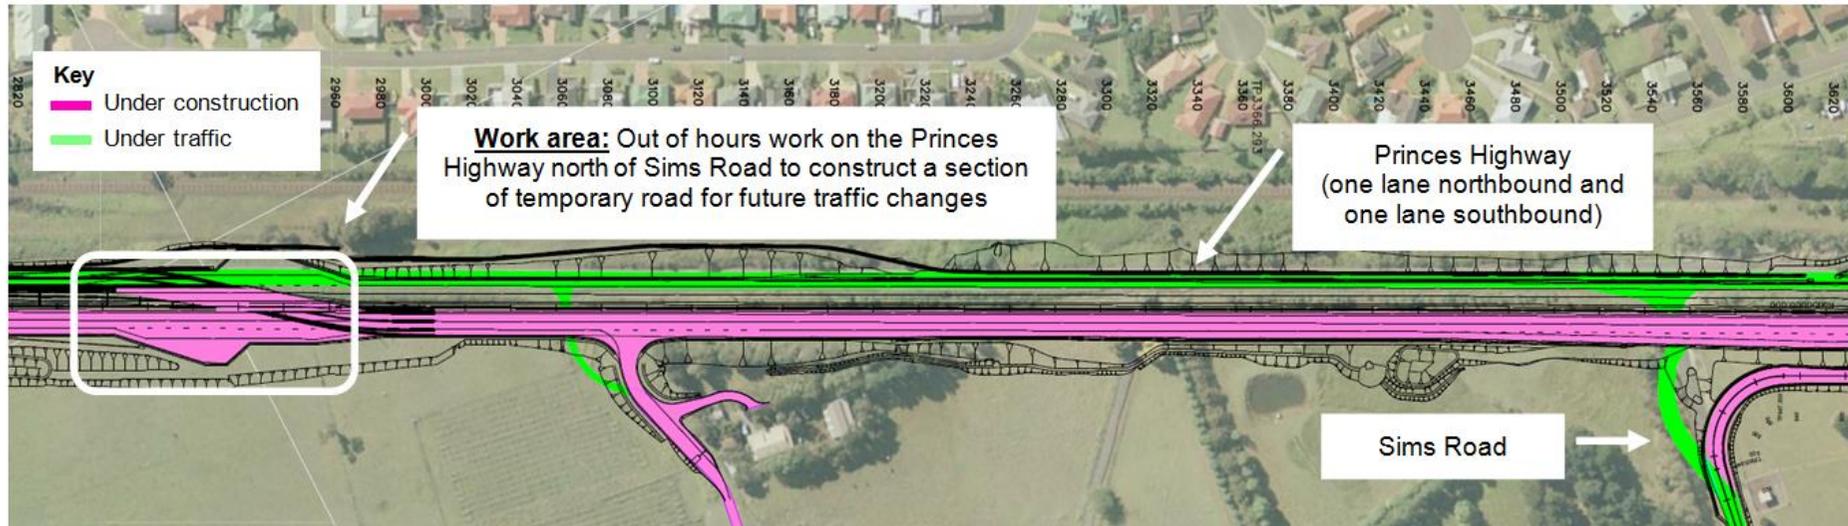

Work to finalise the access road will continue after this traffic change is in place. This work will be carried out under traffic control and access will be maintained.

These changes will remain in place until the next traffic change in this area which involves moving all highway traffic onto the service road between Willowvale Road and Belinda Street. It is expected this change will occur in late March 2014, weather permitting. More information about this traffic change will be provided closer to the time.

Please note the entrance to the Gerringong upgrade site compound and community display centre will also be relocated. Access will be via Willowvale Road. This will allow traffic to flow while the new northbound lanes are constructed.

Roads and Maritime apologises for any inconvenience the work may cause. For more information about the Gerringong upgrade please call the project information line on 1800 506 976 (toll free) or visit the project website www.rms.nsw.gov.au/gu.
