SEPTEMBER 2013

Dear resident

Re: Princes Highway, Gerringong upgrade – truck movements between the Gerringong upgrade and Coolangatta Road, Berry.

Fulton Hogan, Roads and Maritime Services' contractor delivering the Gerringong upgrade, is transporting excess spoil from the Gerringong upgrade to private properties on Coolangatta Road, Berry. The property owners have approved Development Applications from Shoalhaven City Council which allows fill material to be imported to these sites.

The material is a result of improvements to the design of the cutting at the Gerringong curves. It consists of top soil and excavated material.

Transportation of material is expected to recommence on Monday 16 September 2013 and continue until December 2013, weather permitting. This activity is intermittent and when required will take place Monday to Friday between 7am and 6pm and Saturday between 8am and 1pm. When material is being transported a maximum of seven trucks will be used.

A vehicle movement plan is in place to minimise traffic impacts on the Princes Highway and local roads. Fulton Hogan regularly reminds its truck drivers about the speed limits on the Princes Highway and local roads including Prince Alfred Street and Wharf Road.

In response to community concerns Fulton Hogan has implemented a 70km/h operating speed for its trucks travelling along Coolangatta Road, Berry which normally has a speed limit of 90km/h.

Fulton Hogan has also implemented a plant numbering system to enable drivers to be easily identifiable if they don't comply with the truck operating speed limit.

Fulton Hogan is making every effort to minimise traffic impacts and will continue to monitor the truck movements. For more information or to discuss the behaviour of our truck drivers please contact the community relations team on **1800 506 976** (toll free) or email gerringongupgrade@fultonhogan.com.au.

Yours faithfully
