

# Further investigation work on Henry Lawson Drive, Georges Hall

Work scheduled for March, April 2020

## Transport for NSW | March 2020

Transport for NSW will undertake further investigation work along Henry Lawson Drive, between Rabaul Road and Beale Street, Georges Hall.

The work involves **three night shifts** and **three day shifts**, to be undertaken within a three-week period from **18 March to 8 April 2020**. The survey will allow us to examine underground utilities ahead of an upgrade of the Henry Lawson Drive and Rabaul Road intersection.

### Work schedule

Our daytime work hours are **8am to 5pm, Monday to Friday** and **8am to 12pm, on Saturdays**. Our night work hours are **8pm to 5am, from Sunday to Thursday** nights.

### How will the work affect you?

Our work may be noisy at times, but we will do everything we can to minimise its impact, including completing the noisier activities (such as concrete cutting and vacuum excavating) by midnight.

### Traffic changes

There will be temporary traffic changes while work is carried out, including reduced speed limits and lane closures. Please keep to speed limits and follow signs and traffic controllers' directions.

For the latest traffic updates, call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW App.

### Contact us

For more information, please contact the project team by telephone on **1800 316 763** or email [pinchpoint@rms.nsw.gov.au](mailto:pinchpoint@rms.nsw.gov.au).
