

## Temporary closure of Burns Road from Monday 12 September

### September 2022

The NSW Government is upgrading Memorial Avenue to ease congestion, improve travel times and meet the future transport needs for Sydney's growing north west.

Transport for NSW is working on the Memorial Avenue upgrade. The upgrade will help to manage current traffic as well as allow for the expected increases in traffic due to residential and commercial development in the area.

To allow us to safely build the new upgraded road, we will need to make some changes to traffic arrangements.

In planning for this work, we have consulted closely with all emergency services, Hillsbus, The Hills Shire Council, other service providers and the Transport Management Centre.

### What are we doing?

Burns Road will be temporarily closed to all through traffic at Memorial Avenue intersection from **Monday 12 September** until **end of January 2023**, weather permitting. The closure is required to allow services to be relocated, stormwater drainage to be installed and the new road to be built. Pedestrian access will be maintained during the closure.

### How will the work affect you?

Local traffic detours will be place during the closure.

Motorists travelling from Burns Road can access Windsor Road via Memorial Avenue using the following detour:

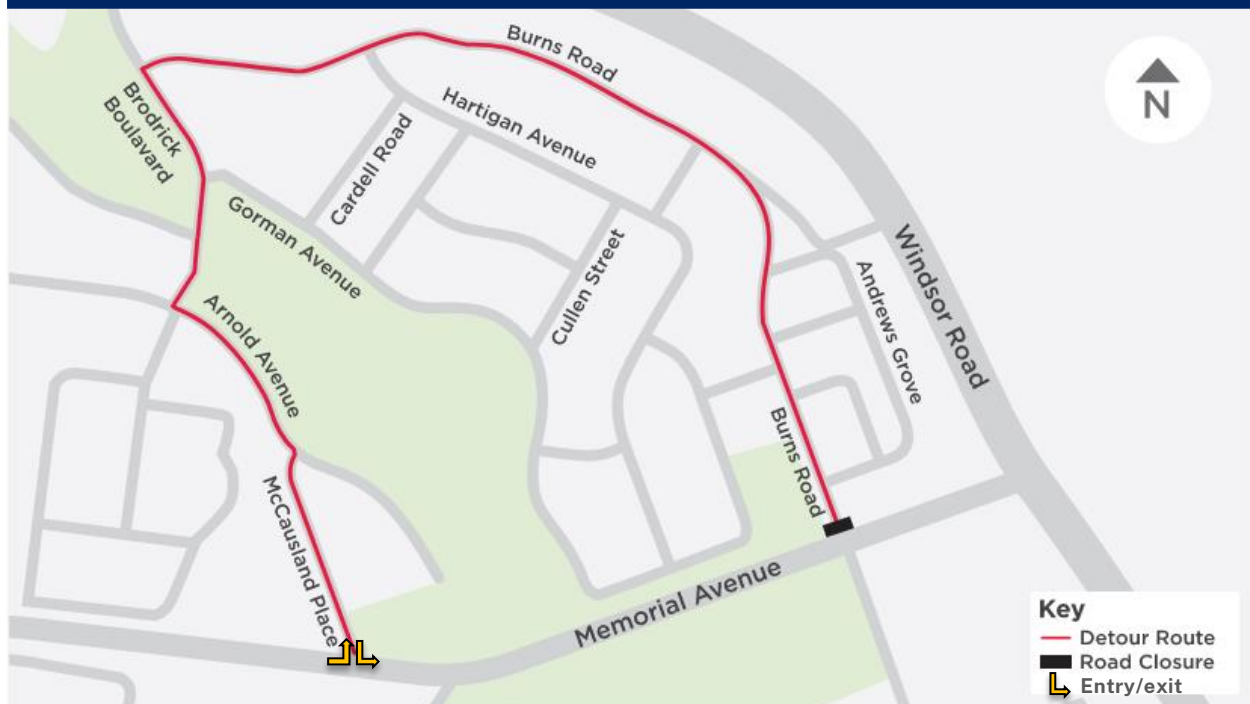

- Broderick Boulevard through to Arnold Avenue, McCausland Place and left into Memorial Avenue.

We have included a map to show the detour routes. All detour information will also be available on the project website [nswroads.work/memorialave](https://nswroads.work/memorialave).

### Traffic changes

There will be a temporary traffic detour in place during the closure. Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates call **132 701**, visit [livetraffic.com](https://livetraffic.com) or download the Live Traffic NSW App.
