## How will the work affect you?

This work will be completed at night to reduce traffic disruption and any risks to the workers and road users during the day.

The work will involve some use of noisy machinery. We will make every effort to lessen the disturbance where possible, completing noisier work earlier in the evening and turning off vehicles when not in use.

Directly affected residents will be advised about the expected night work near their property and the measures being taken to lessen the disturbance during the work.
