

Investigation work on King Georges Road between Beverly Hills and South Hurstville, from Monday 23 July

The NSW Government is funding these investigations as part of its \$300 million Gateway to the South Pinch Points program which will improve traffic flow on Sydney's key southern road corridors by upgrading major intersections.

Roads and Maritime Services will be carrying out further investigation work in the area surrounding King Georges Road between Morgan Street, Beverly Hills and Grosvenor Road, South Hurstville.

We will be surveying to locate, clean and inspect drainage in the area to help further develop a design for future improvements to King Georges Road.

We have included a map to show the location of the investigation work.

Our work schedule

We will be on site for **90 night shifts** between **Monday 23 July** and **Monday 3 December**, weather permitting. Our night work hours will be between **8pm** and **5am** from **Sunday** to **Friday**. We will not be working on public holidays.

How will the work affect you?

Our work may be noisy at times but we will do everything we can to minimise its impact, including completing the noisier activities by **11pm**. We will also organise our schedule to ensure that we will not be working in each location for more than two consecutive nights or for more than six nights in a month.

Traffic changes

There will be temporary traffic changes during our work hours to ensure the work zone is safe.

Lane closures will be in place and may affect travel times. Please keep to speed limits and follow signs and traffic controllers' directions. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Nearby investigations

Roads and Maritime has previously communicated with some residents within the area about separate work that includes drilling and digging holes in multiple locations along King Georges Road to establish ground conditions. We were scheduled to complete this work on Friday, 29 June, however had to postpone a number of shifts as a result of inclement weather.

To complete the remaining work, we will be back on site for another **14 night shifts** between **Monday 23 July** and **Friday 31 August**, weather permitting. Our night work hours will be between **8pm** and **5am** from **Sunday to Friday**.

Contact

If you have any questions, please contact our project manager, Elie Anthony, on 1800 572 114 during business hours or G2S@rms.nsw.gov.au. For more information on our projects, visit rms.nsw.gov.au.

Thank you for your patience during this important work.
