

## Kingsford to Centennial Park Walking and Cycling Improvements

### Work look ahead and out of hours work for November & December

Transport for NSW | November 2022

The Australian and NSW Governments are delivering walking and cycling improvements to provide an active transit link between Kingsford and Centennial Park.

#### Upcoming work – standard hours

We are continuing the construction work along the project alignment to build the new cycleway. Work includes upgrading the stormwater and drainage system and building new footpaths, kerbs, gutters, pram ramps and driveways.

This notice outlines our work over the next two months between **1 November and 23 December 2022**. The project is expected to be completed by the end of 2023.

Our standard construction hours are Monday to Friday, 7am to 6pm and Saturday, 7.30am to 3.30pm. Work is dependant on weather and site conditions and is subject to change.

Please refer to the maps overleaf for detailed locations of upcoming work.

#### Upcoming activities in standard hours:

- Commence pavement works and electrical installation on Doncaster Avenue, between Abbotsford and Carlton Street – **up to three weeks of work**
- Continue construction of the cycleway on Doncaster Avenue between Bowral Street and Todman Avenue – **up to 10 days of work remaining**
- Traffic signal modification and pavement works including driveways at the intersection of Todman Avenue and Doncaster Avenue – **up to three weeks of work**
- Continuing construction of the cycleway on Doncaster Avenue, between Todman Avenue and Anzac Parade – **up to eight days of work remaining**

- Commence construction of the cycleway on Houston Road, between Day Avenue and Strachan Street – **up to two months of work**
- Constructing a new stormwater pit on Doncaster Avenue and Ascot Street – **up to three days of work**
- Commence stormwater, pavement and concrete works at Day Avenue and Doncaster Avenue intersection – **up to two months of work**
- Continuing construction of the cycle way on Doncaster Avenue between Anzac Parade and Day Avenue – **up to two months of work**

#### Upcoming work – out of hours

Most work will be completed during the day, however, to maintain safety for road users and workers, and to keep people moving on local roads, we need to carry out some of our work outside normal construction hours.

The construction activities below will occur outside of standard work hours between **1 November and 23 December 2022**.

This work will occur up to five nights a week between 7pm and 5am, Sunday to Thursday dependant on weather and site conditions. We do not work public holidays.

Upcoming activities out of hours:

- Commence footpath works and electrical installation in Doncaster Avenue between Abbotsford and Anzac Parade – **up to 15 nights of work**
- Commence asphalt work on Doncaster Avenue between Anzac Parade and Todman Avenue – **up to two nights of work**
- Continue construction of the cycleway on Doncaster Avenue between Bowral Street and Todman Avenue – **up to 10 nights of work**
- Continuing construction of traffic signals, electrical installation, and concreting works

- at the intersection of Todman Avenue and Doncaster Avenue – **up to 10 nights of work**
- Constructing a new pedestrian crossing at Doncaster Avenue into Darling Street – **up to 2 nights of work**
- Commencing electrical installation on both Doncaster Avenue and Ascot Street – **up to 10 nights of work**
- Commencing pavement and stormwater works between Anzac Parade and Roma Street – **up to five nights of work**
- Stormwater installation and electrical work at Day Avenue and Doncaster Avenue intersection – **up to 10 nights of work**
- Stormwater installation and potholing along Houston Road between Day Avenue and Gardeners Lane – **up to three nights of work**
- Completing tree trimming and removal at Sturt Street, between Bunnerong Road and Anzac Parade – **up to two nights of work**
- Locating utilities and potholing, removing a section of the existing traffic island and constructing traffic signals at the intersection of Bunnerong Road, General Bridges Crescent and Sturt Street – **up to 10 nights of work**
- Potholing and traffic signal works at the intersection of Gardeners Road and General Bridges Crescent intersection – **up to 15 nights of work.**

## Minimising community impact

Our work activities will require the use of machinery that generates noise, light and vibration. Equipment used for these activities include: concrete saw cutter, excavator, core drill, concrete truck, compaction equipment, vacuum excavation truck, mobile lighting tower, chainsaws, power tools and utility trucks. To minimize the impact of this work we will:

- Complete noisiest activities (use of chainsaws, mulchers, jackhammering and saw cutting) by midnight
- Schedule breaks in the work program and move locations
- Turn off machinery when not in use
- Use acoustic blankets to minimise noise, where feasible
- Direct temporary lighting down and away from houses
- Fit equipment with devices to minimise noise, particularly non-tonal reversing beepers

- Monitor noise periodically so we can manage any potential impacts and adjust our work as required
- We will work with residents in close proximity to these works to minimise impacts and we will notify you ahead of the work in your area
- All work will be carried out in line with project environmental approvals.

## Site compounds

Site compounds were established in March 2022 and will continue to be used throughout the project for the storage of materials and equipment, site offices and work amenities.

Our site compounds may be used during our standard and out of hours work and plant and machinery may be in operation during this time.

## Traffic and pedestrian path changes

There will be temporary lane closures to ensure the safety of road users and workers and temporary changes to parking.

There may be partial footpath closures near our work area and alternative path and signs will be in place.

We may also have detours in place for some of our work. Properties affected by these detours will be notified directly.

Please allow extra travel time, keep to speed limits and follow signs and traffic controller directions. For the latest traffic updates, call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW app.

### Contact us

If you have any questions or would like to sign up for regular email construction updates, please contact our delivery partner, Burton Contractors:
