

Temporary closure of LH Ford Bridge, Dubbo from 4 March 2020

Transport for NSW is nearing completion on the essential maintenance work on LH Ford Bridge to improve and strengthen the bridge.

Maintenance work on the LH Ford Bridge commenced in December 2018 and is nearing completion, with the next step in construction to include connecting the new piers to the existing bridge span.

To enable safe completion of this work the bridge will be closed to traffic for up to five nights between the hours of 8pm to 6am from 4 March.

How will this affect you?

Night work will be carried out on 4, 5, 9, 10 and 11 March between the hours of 8pm and 6am. Vehicle movements will be detoured across the Emilie Serisier Bridge. Connecting the new piers is highly technical and as such the dates may need to be amended to complete this stage of the project. We will notify the community should these dates change.

There will be some noise and lighting generated by this work, we will make every effort to minimise these impacts.

Pedestrian walkways on the LH Ford Bridge will remain open during the night work and cyclists are encouraged to dismount or use Emilie Serisier Bridge.

The detour route, which accommodates oversize vehicles, will remain in place for vehicles 3m or wider until project completion in late March 2020.

Please keep to speed limits and follow the direction of traffic controls and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.
