

New weekday clearways and 'No Stopping' on Lyons Road

Between Great North Road, Five Dock and Victoria Road,
Drummoyne

Project Update | May 2018

The NSW Government is funding this project as part of its \$121 million Clearways Program, which aims to reduce congestion and delays on Sydney's roads.

In April 2018, Roads and Maritime Services informed the community about the introduction of new weekday clearways on Lyons Road. We also updated the community about engagement outcomes from feedback on the proposed new 'No Stopping' parking restrictions on Lyons Road, sought in November and December 2017.

Roads and Maritime has received additional concerns from businesses and the community about the parking changes proposed for Lyons Road, which we are investigating and working through.

What happens next?

Roads and Maritime in consultation with the City of Canada Bay Council will investigate the concerns raised by businesses and community members. While these investigations are being completed we will not be undertaking any clearways or 'No Stopping' changes on Lyons Road.

We will continue to work with the Canada Bay Council to deliver the new timed parking and car park upgrades to Janet Street. This is to ensure adequate business parking is available, which is subject to Council approval.

Roads and Maritime will continue to keep the community updated as the project progresses.

What is a clearway?

A clearway is a section of road where stopping and parking is not allowed during the times shown on the clearway sign. Clearways are put on key arterial roads where traffic is often heavy and congested. They help keep vehicles moving by making all lanes available to motorists. The only exception is the stopping of buses and taxis dropping off or picking up passengers as well as emergency vehicles.
