

# Manilla Road (Peel Street) upgrade

The NSW Government is delivering easier, faster and safer travel for all road users. The next stage of the Manilla Road (Peel Street) upgrade involves installing new traffic lights at both Jewry Street and Tribe Street intersections.

## Jewry Street intersection upgrade

The new intersection at Jewry Street (South) has been designed to improve safety and traffic flow. As a result, the two roundabouts will be removed and the intersection upgraded with traffic lights. There are a number of other permanent changes being introduced in the area:

- There will be no right turn from Manilla Road (Peel Street) into Jewry Street (North), except for emergency vehicles. Northbound access to the shopping centre will be via Bligh Street.
- Manilla Road access into the shopping centre will change. There will be no exit to Manilla Road from the shopping centre. Entry will be by left hand turn from Manilla Road southbound or alternative access will be via Brewery Lane at the rear of the centre.

## Tribe Street intersection upgrade

The Tribe Street intersection will be upgraded to improve safety and travel efficiency. The intersection upgrade includes installing new traffic lights and pedestrian crossings.

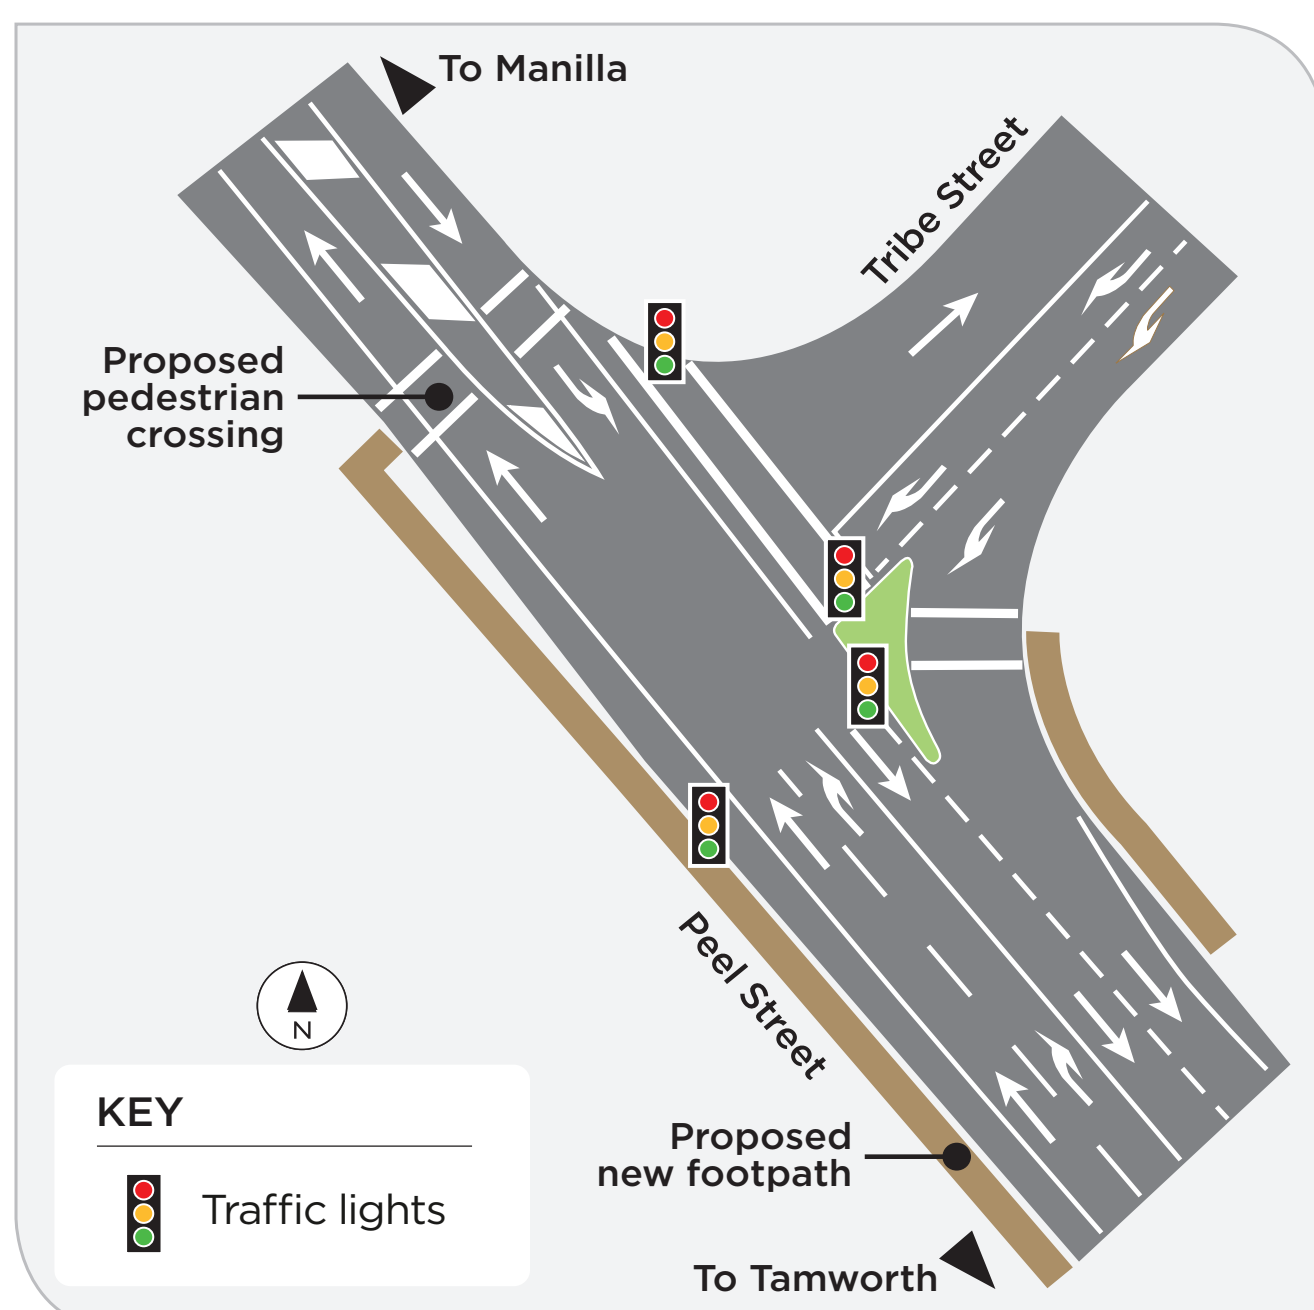

## Changed access during construction

While we are upgrading the intersection, vehicle and pedestrian access to the shops will be via Brewery Lane from Bligh Street. To allow us to build the intersection we will also temporarily close Jewry Street (North) at the intersection with Manilla Road (Peel Street).

There will also be intermittent closure of access to the shops from Manilla Road (Peel Street) during the upgrade. Access from Jewry Street (North) to Manilla Road (Peel Street) will be closed during construction.

We appreciate your patience during this important work. Electronic message signs will be installed to explain the changes to traffic conditions to motorists. We will keep the community informed as the project progresses.
