

‘Meccano Set’ replacement, Hume Highway, Lansvale: temporary road closures

Project Update | April 2019

Location of work on Hume Highway, at the intersection of Henry Lawson Drive and Woodville Road, Lansdowne

Roads and Maritime will begin removing the existing ‘Meccano Set’ structure at the intersection of Hume Highway, Woodville Road and Henry Lawson Drive, at Lansdowne in May 2019. We are erecting a new, identical structure.

The work requires that we close each approach to the intersection for one night each. We will do the work over four consecutive Saturday nights between **9.30pm Saturday night** and **8am Sunday morning**. We are planning the first closure for **Saturday 11 May 2019**, weather permitting.

Intersection closures:

- **Saturday night May 11** – Woodville Road approach
- **Second Saturday night May 18** – Henry Lawson Drive approach
- **Third Saturday night May 25** – Hume Highway western approach (Cabramatta side)
- **Saturday night 1 June** – Hume Highway eastern approach (Villawood side)

Please note: proposed dates are subject to change.

Clearly marked detours and traffic controllers will be in place to help road users complete their journeys.

We encourage all road users to visit livetraffic.com.au or telephone **13 27 01** for the latest updates on the planned closures.

Detour maps are available on the project website, rms.work/meccanoset.

About the work

Our work may be noisy at times, but we will do everything we can to minimise its impact, including completing the noisier tasks **before midnight**.

We are replacing the 'Meccano Set' on the Hume Highway at Lansdowne
