

Milsons Point Wharf expansion

Artists impression of the expanded Milsons Point Wharf

COMMUNITY UPDATE 3

APRIL 2017

The NSW Government is expanding Milsons Point Wharf as part of the Transport Access Program. Following feedback from the community the Review of Environmental Factors for the project has been finalised and work to upgrade the wharf will start on Thursday 27 April 2017.

The wharf expansion is part of the major progressive upgrade of ferry wharves across Sydney Harbour. This update provides important information about what to expect during construction.

Milsons Point Wharf will be closed from Thursday 27 April for about six months, weather and maritime conditions permitting. All efforts will be made to reopen the wharf as soon as possible. Ferry services and charters will operate to Jeffrey Street Wharf, Kirribilli during construction.

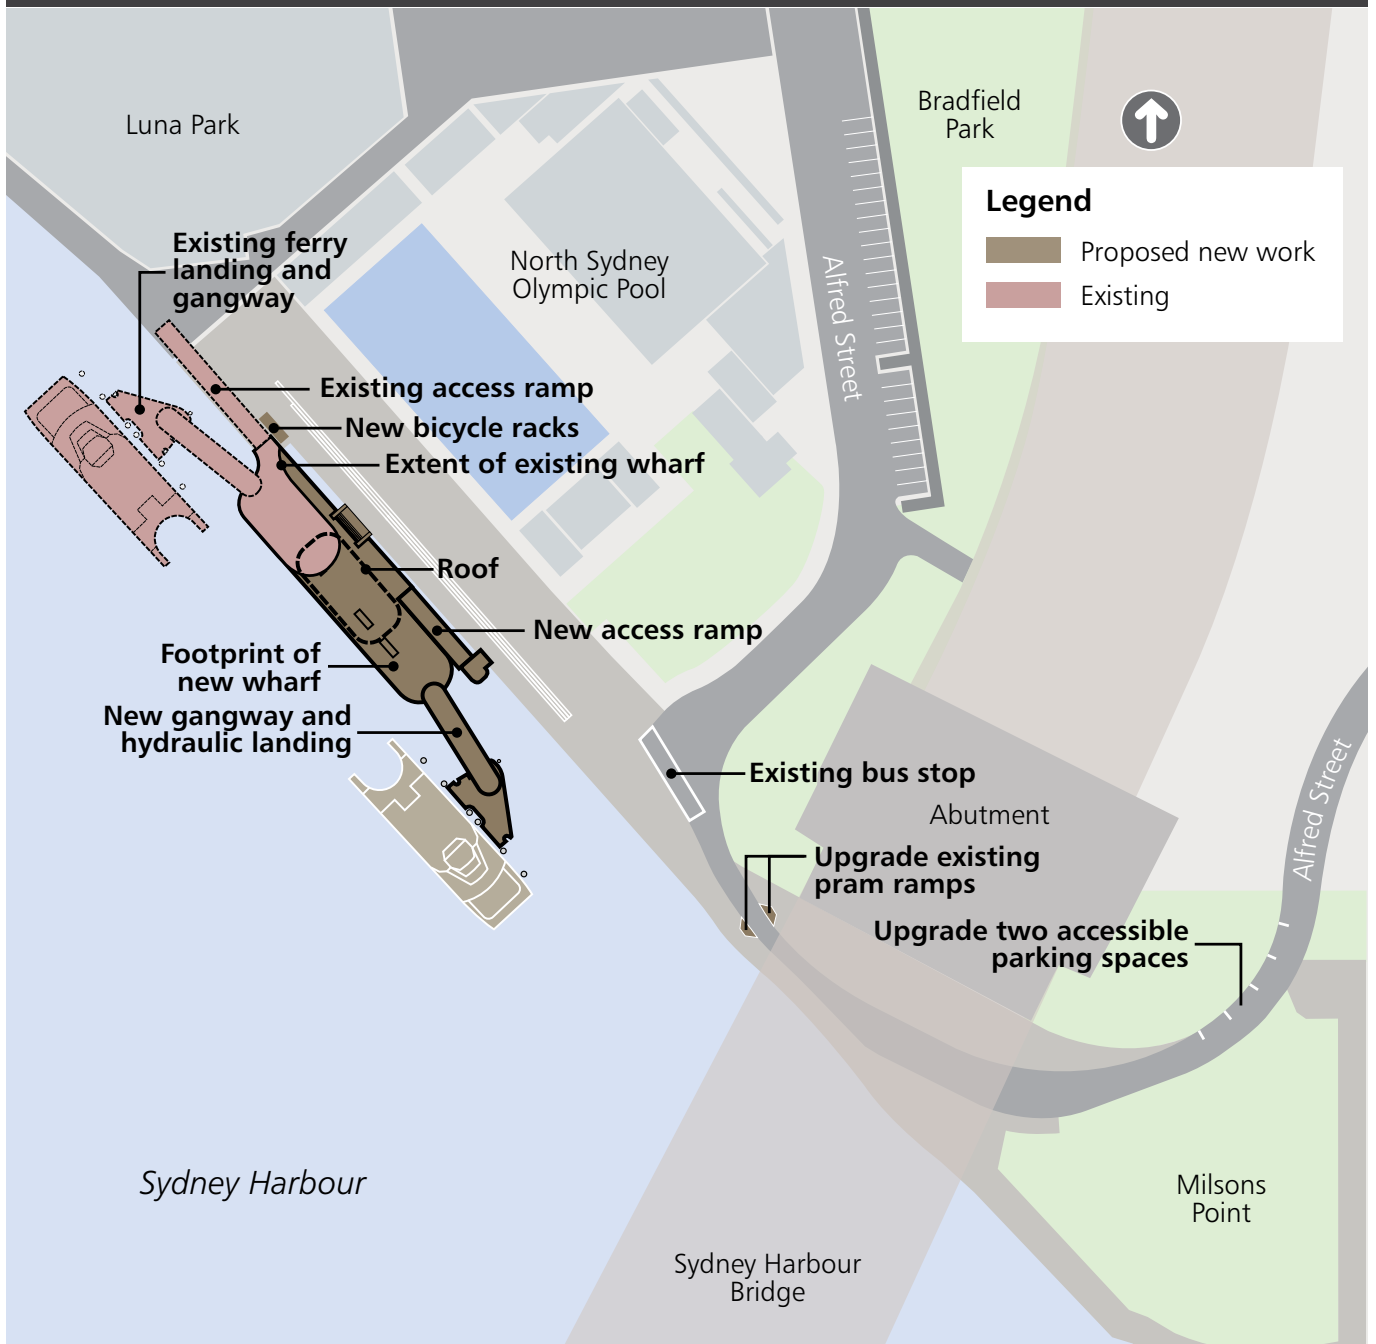

The Milsons Point design has been developed following feedback from the community and aims to balance factors including safety, accessibility, efficient ferry operations and environmental impacts. The Review of Environmental Factors went on display for comment in December 2016. Roads and Maritime Services received eight submissions relating to the proposal and has prepared a submissions report which summarises the feedback and responses.

The Review of Environmental Factors and submissions report can be viewed at rms.nsw.gov.au/milsons-point-wharf.

The expanded wharf will provide:

- ▶ capacity for additional ferry services
- ▶ additional seating and waiting areas
- ▶ quick and efficient ferry boarding and disembarking
- ▶ improved access for mobility impaired customers and customers with prams
- ▶ improved pedestrian access from the foreshore to the wharf
- ▶ effective wayfinding signage and lighting.

WHAT TO EXPECT DURING CONSTRUCTION

Construction activities will include:

- ▶ site establishment
- ▶ installation of steel piles
- ▶ installation of gangway and hydraulic platform
- ▶ extension of existing waiting area
- ▶ relocation and upgrade of existing waiting area roof
- ▶ construction of new access ramp and stairs
- ▶ new wharf fit out
- ▶ installation of new seating and customer information within expanded waiting area
- ▶ upgrade of existing accessible parking to the south
- ▶ installation of bicycle racks
- ▶ upgrade of existing pram ramps
- ▶ installation of wayfinding signage and lighting.

Construction will take about six months to complete, weather and maritime conditions permitting. All efforts will be made by the project team to reopen the wharf as soon as possible.

A temporary construction site compound will be established near the wharf for the duration of the project. The area will be fenced off and restricted to authorised personnel.

The standard work hours will be 7am to 6pm Monday to Friday and 8am to 1pm Saturday. Some of this work will be noisy. Some early morning or night work will be required, to install piles and lift sections of the wharf in place, when the water is at its calmest. Some of this work will generate noise. We will notify nearby residents and businesses prior to any early morning or night work taking place.

ALTERNATIVE TRANSPORT DURING CONSTRUCTION

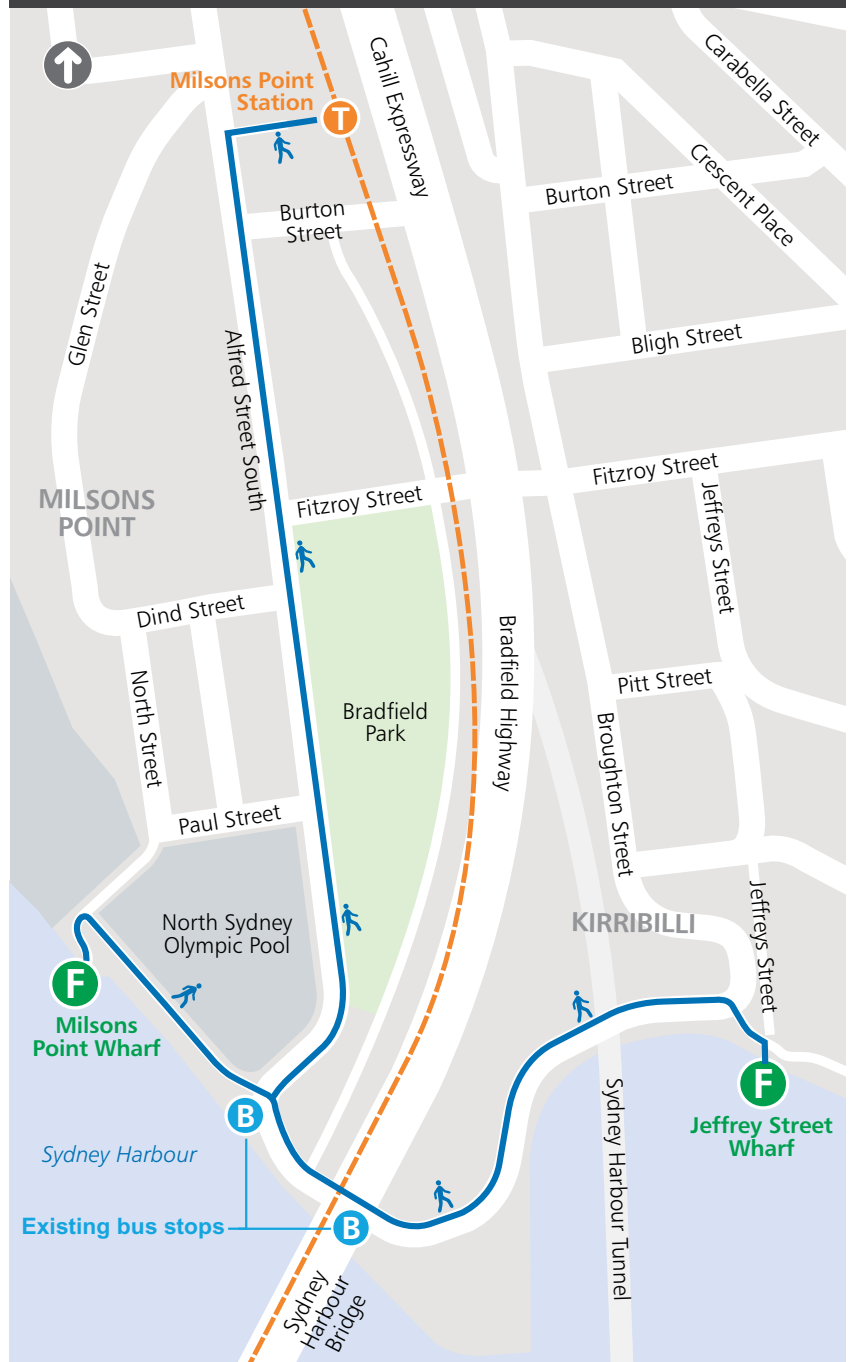

Milsons Point Wharf will be closed during construction and ferry services will operate to Jeffrey Street Wharf, Kirribilli, a six minute walk from Milsons Point Wharf.

Jeffrey Street Wharf is not wheelchair accessible. Customers requiring wheelchair access will be able to use existing bus services to connect with ferry services at McMahons Point.

Customers will also be able to connect to existing train services at Milsons Point Station and existing bus services operating from Alfred Street.

PLAN YOUR TRIP

Customers are encouraged to allow extra time for their journeys and to plan their trip by visiting www.transportswinfo or by calling 131 500.
