

## Traffic lights to be installed at Wason Street and Princes Highway intersection in Milton

Transport for NSW is installing traffic lights at the Princes Highway and Wason Street intersection to improve pedestrian safety and improve traffic flow in the Milton town centre.

### What are we doing?

Work will include the removal of the current zebra crossing, installation of traffic lights, upgrades to the pedestrian area and ramps and line marking.

The intersection upgrade will contribute to the 20 year plan for the Princes Highway to deliver a safer, more reliable, more efficient and better connected transport network for all users and contribute to the liveability of regional towns.

### Why are we doing this?

As part of the Milton Ulladulla Traffic Study in 2018, the local community raised concerns about pedestrian safety and accessibility between the Princes Highway and Wason Street.

Traffic lights will provide a safer way for pedestrians to cross the highway, better connecting the town and making businesses and services easier to access.

For more information on the 20 year plan, visit [www.princeshighway.nsw.gov.au/roadmap2040](http://www.princeshighway.nsw.gov.au/roadmap2040).

### How will work affect you?

Work will be carried out at night when traffic volumes are lower to minimise impacts on motorists and local businesses. During construction there will be impacts to parking in the work area.

We will be contacting nearby businesses and properties before work starts to discuss how we can assist them during the construction of these traffic lights.

Work is expected to begin after the Easter school holiday period.

For the latest traffic updates, you can call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW App.
