

Project update – Proposed intersection improvements on Mona Vale Road and Forest Way at Terrey Hills

The NSW Government is funding two intersection upgrades on Mona Vale Road and Forest Way as part of its Pinch Points Programs.

Roads and Maritime Services invited feedback in May on proposed intersection improvements at Mona Vale Road and Forest Way, and at Forest Way and Garigal Road in Terrey Hills.

The proposed changes would improve travel times for motorists by reducing the congestion and traffic queues at these intersections. Delays are caused by the large number of vehicles turning right from Mona Vale Road onto Forest Way, and turning right from Forest Way onto Mona Vale Road.

Two separate community consultation reports have been prepared summarising the matters raised during the consultation period. A copy of this report is available on our website.

Intersection improvements on Mona Vale Road at Forest Way, Terrey Hills

The NSW Government is funding a proposal as part of its \$300 million Urban Roads Pinch Point Program, which aims to reduce congestion and improve travel times on Sydney's busiest corridors.

We received 89 responses, with the majority in favour of the proposal with some suggestions. There were 7 people who supported the proposal, 45 who supported the proposal conditionally, 34 did not state a preference and three did not support it.

Intersection improvements on Garigal Road at Forest Way, Terrey Hills

The NSW Government is funding a proposal as part of its \$225 million Pinch Points Program, which aims to reduce delays, manage congestion and improve travel times on Sydney's main roads particularly during week day peak periods.

We received 64 responses, with the majority in favour of the proposal with some suggestions. There were 7 people who supported the proposal, 34 who supported the proposal conditionally, 22 did not state a preference and one did not support it.

After considering all responses, along with the proposal's aims and design requirements, we have decided to proceed with both proposals unchanged. We have responded directly to questions or concerns raised and thank everyone for considering the proposals and for their feedback.

What happens next?

We are planning to start construction on both of the projects in September, 2017.

Intersection improvements on Mona Vale Road at Forest Way, Terrey Hills

Proposed work:

- widening into the existing median on the western side of Mona Vale Road to accommodate an extended right turn bay onto Forest Way
- widening into the existing median on the eastern side of Mona Vale Road to accommodate an additional westbound through lane on Mona Vale Road
- modifying the existing westbound slip lane on Mona Vale Road from Forest Way to accommodate three through lanes on Mona Vale Road
- installing a 'turn left at any time with care' sign at the westbound slip lane from Mona Vale Road onto Forest Way and at the northbound slip lane from Forest Way onto Mona Vale Road
- widening into the existing median on Forest Way between Mona Vale Road and Garigal Road to accommodate a dedicated left turn lane northbound onto Mona Vale Road
- modifying the left slip lane from Mona Vale Road westbound onto Forest Way, to accommodate the construction of a traffic island and dedicated cycle lane.

Intersection improvements on Garigal Road at Forest Way, Terrey Hills

Proposed work:

- construction of a traffic island on the south-western side of the intersection to accommodate a northbound left slip lane from Forest Way into Garigal Road
- installing a zebra crossing from the newly constructed traffic island to the southern side of Garigal Road
- widening into the existing median on Forest Way to accommodate an additional northbound lane, through the Garigal Road intersection
- installing a 'turn left at any time with care' sign on Forest Way at the new slip lane onto Garigal Road
- relocating the existing northbound bus stop on Forest Way to the northern side of the Garigal Road intersection
- providing a new footpath at the relocated bus stop.

We will notify you again before work starts and will continue to update you as the project progresses.
