BUILDING OUR FUTURE

Jane Street and Mulgoa Road infrastructure upgrade

Extension of survey and investigations night work from Tuesday 2 January, 2018

Roads and Maritime Services | December 2017

The Australian and NSW governments are jointly funding the \$70 million Jane Street and Mulgoa Road infrastructure upgrade. The vital upgrade will better connect roads to the Penrith CBD and ease congestion at these intersections.

Roads and Maritime Services has extended the investigation period for an extra two months due to the complexity of the work.

We will carry out surveys, utilities investigation and soil sampling work to further refine the design of the Jane Street and Mulgoa Road infrastructure upgrade.

The investigations include minor excavation and will take place at multiple locations within the project boundary. We have included a map to show where we will be working.

The work will take place at night between **Tuesday 2 January** and **Friday 30 March 2018**, weather permitting. To minimise the impact on road users, work will be carried out between **8pm and 5am** when traffic volumes are lower. Some off road work like soil sampling will occur in the day between **7am and 6pm**.

How will the work affect you?

Our work may be noisy however we will make every effort to minimise noise by arranging the work in stages at different locations and scheduling work near residential areas earlier in the evening.

Traffic changes

There will be some temporary traffic changes to ensure that work zones are safe. Lane closures will be in place and may affect travel times however access to properties and businesses will be maintained.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.
