

Nelligen Bridge Replacement

Traffic changes on the Kings Highway

The NSW Government is funding this \$148 million project which will provide a new bridge over the Clyde River and upgrades to the Kings Highway at Nelligen.

What are we doing?

Traffic on the Kings Highway between Wharf and Reid streets will be moved south onto temporary pavement from around **12pm Wednesday 22 June until late 2022**, weather permitting. This will allow new road pavement to be built on the western side of the new bridge.

We will advise the community in advance if this date changes due to weather or program impacts. A new date will be advertised on roadside electronic signs and the project website.

How will these changes affect you?

Temporary traffic changes and reduced speed limits will be in place to ensure the work zone and road is safe for road users and workers.

The Kings Highway will be reduced to 40km/h near work areas, with the rest of the highway within the project boundary reduced to 60km/h.

Motorists are advised to drive to conditions, allow five minutes additional travel time and follow the directions of signs and traffic control. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

A map showing these changes is provided over the page.
