

Drainage relocation on the Mitchell Highway and Newell Highway, Dubbo from Sunday 6 September

The NSW Government is funding \$20 million to upgrade the Newell Highway and Mitchell Highway intersection to improve safety and efficiency.

Drainage relocation on the Mitchell Highway and Newell Highway, Dubbo

We will be relocating existing and building new drainage infrastructure at the Mitchell Highway and Newell Highway intersection.

Night work is scheduled from Sunday 6 September 2020, for three weeks, weather permitting.

This work is scheduled at night for the safety of motorists and workers as well as to minimise the impact to local residents and businesses.

Drainage utility relocation work on the Mitchell Highway and Newell Highway, near the intersection, will be carried out at night between **6pm** and **6am** from **Sunday to Thursday** for three weeks from **Sunday 6 September 2020**.

Transport will continue to notify the community about the timeframe of upcoming construction activities.

How will the work affect you?

We will make every effort to minimise noise by arranging the work in stages at different locations, completing noisier activities earlier in the night and turning off machinery and vehicles when not in use.

We will notify you in advance and make every effort to minimise community impact wherever possible.

Access to businesses and residences will be maintained. Where possible all impacts will be minimised and we will consult with you directly if some temporary changes are necessary.

Traffic changes

There will be some temporary traffic control measures in place to ensure the work zone is safe. There will be reduced lane widths and lane closures near the work during this time. There will be a reduced speed limit of 40km/h near the work and safety barriers will be used in some locations for the safety of workers and motorists.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.
