

Ongoing night work along Warringah Road, Frenchs Forest from Thursday 1 September

The NSW Government is upgrading roads around the new Northern Beaches Hospital with work proposed to be completed in time for the hospital opening in 2018.

Roads and Maritime Services has been carrying out services relocation work along Warringah Road. Further work will be carried out from Thursday 1 September.

This work will involve:

- Establishing traffic control
- Trenching and underboring along the northern side of Warringah Road
- Installing communication cables.

Due to the high volume of traffic and pedestrians in this area, some of the work will be carried out at night for safety reasons, to limit the impact on the road network and to maintain the service continuity of service utilities during relocation.

There will be up to **20 shifts of night work** from **Thursday 1 September** to **Friday 30 September**, between **6pm** and **7am**, weather permitting.

We have included a map to show the location of work.

How will the work affect you?

There will be some lighting and noise associated with this work. Machinery and equipment used may include lighting towers, trucks, excavators, underboring rig, light vehicles, concrete cutters, road saw, jackhammers and hand tools.

We will make every effort to minimise noise by using flexible noise shields to dampen noise, carrying out noise monitoring and working in shifts and in different areas so you will not be affected for more than three consecutive nights per week. Lighting towers will be directed away from residential properties.

Traffic changes

There will be some temporary traffic changes to ensure the area is safe for workers, pedestrians and motorists. Lane closures will be in place and may affect travel times. Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact

We are committed to minimising the impact of construction on the community and will continue to keep you informed as the project progresses. If you have any questions, would like to register for project updates or have any feedback, please contact our delivery partner Ferrovial York Joint Venture.
