

## Environmental surveys near the Pacific Highway and Manns Road from Monday 19 December

### Roads and Maritime Services is planning the future upgrade of the Pacific Highway and Manns Road between Narara and Lisarow.

The updated road design proposal was on display for community feedback in September and October 2016. Please visit the project web page for more details [rms.nsw.gov.au/nararatolisarow](http://rms.nsw.gov.au/nararatolisarow).

#### Environmental surveys

To continue to plan this proposed upgrade, technical and environmental surveys are being done in the area.

SMEC Australia, on behalf of Roads and Maritime, will be carrying out ecological investigations near the Pacific Highway and Manns Road between **Monday 19 December and Friday 23 December 2016**, weather permitting. Further work will be done from **Tuesday 3 January 2017** for around eight weeks, weather permitting.

Work will be carried out on council reserves and on private properties along Manns Road and the Pacific Highway, and along Narara Creek Road, Reeves Street, Adam Street, Carrington Street, Hanlan Street and Narara Valley Drive.

The work involves physical surveys, targeted wildlife monitoring, animal callbacks and examination of plants, including trees with hollows. This information will inform Roads and Maritime's environmental impact assessment and help gain an understanding of plants and animals within the local area that surrounds the proposal.

Our working hours will be between **8am and 5pm** while the animal callback work will be done at night.

All field staff will be carrying photographic identification and permission to access private property will be sought from property owners.

---
