

Airport East Precinct work: November 2019

The Australian and NSW Governments are upgrading roads east of Sydney Airport to improve traffic flow and access to the airport and Port Botany.

The project is in the finishing stage, where we are completing minor work and landscaping. In October we laid the final layer of asphalt and painted the permanent line marking.

November work includes:

- minor kerb, footpath and median work including saw cutting, concrete preparation work and pouring
- installing fencing, safe barriers, gates and guard rails around the project area
- removing redundant electrical poles, energising newly installed utilities and drainage work
- construction work inside the site compound areas on Wentworth Avenue and Botany Road
- final line marking and roadway finishes
- delivery of construction vehicles and equipment to the work areas and use of the storage site in Dransfield Avenue.

Standard construction hours for the **Airport East project** are from **7am to 6pm, Monday to Friday** and **8am to 1pm on Saturday**, excluding public holidays. Out of hours work will include up to **five-night shifts from 9pm to 5am** during this week. Not all work during this time will be noisy.

Airport North Precinct work: November 2019

The NSW Government is upgrading roads north of Sydney's Kingsford Smith Airport to improve traffic flow and connections to and from the Airport and Port Botany.

Work is progressing well. We have begun to transfer utilities onto the newly built infrastructure and are making our way through laying new asphalt.

The work for November includes:

- road works including installing kerbs, footpaths and driveways as well as laying new asphalt
- identifying and relocating services on O'Riordan Street and side streets.
- installing environmental controls including excavation and material removal along O'Riordan Street
- operating and monitoring groundwater dewatering systems 24/7
- use of site compounds at 166 and 200 O'Riordan Street for delivery and removal of equipment and materials
- traffic management and roadwork including temporary traffic changes along O'Riordan Street
- ongoing pedestrian detours. This includes the continued closure of the pedestrian footpath on the eastern side of O'Riordan Street between High Street and Baxter Road.

Standard construction hours for the **Airport North project** are from **7am to 6pm, Monday to Friday and 8am to 1pm on Saturday**, excluding public holidays. Our night working hours are **9pm to 5am**.

There may be some noise, dust, vibration and disruption associated with this work. Machinery and equipment used may include trucks, excavators, paving machines, rollers, lighting towers, road saws, plate compactors, vacuum trucks, grinders, cranes, elevated work platforms, chainsaws, mulching machines, light vehicles, hand tools, concrete trucks and equipment. We will continue to make every effort to minimise the impacts to the local community.

If you have any questions about the work on either project, please contact our delivery partner, John Holland Group on **1300 862 844** or comms.airportprecinct@jhg.com.au.
