

## Sydney Harbour Bridge Access Lifts - new night work schedule

### The NSW Government is investing in projects to modernise and improve access to the Sydney Harbour Bridge.

Roads and Maritime Services is installing lifts to the Sydney Harbour Bridge pedestrian walkway at Kirribilli and The Rocks to ensure everybody can enjoy the experience of being on one of Australia's most recognisable landmarks.

Since the Review of Environmental Factors (REF) was displayed in October 2017, we have prepared an Addendum to the REF. The Addendum assesses increasing the amount of night work and changing the number of nights we can work each week from two to five for the project.

Following consultation with directly impacted residents and stakeholders the Addendum has been finalised and is available to view on the project webpage.

#### How will the work affect you?

The new night work schedule will start from **Monday 9 July**, weather permitting. If you would like to register to receive more detailed information about the project please contact the project team directly.

Lanes 7 and 8 on the Sydney Harbour Bridge will be closed during most night shifts. During these closures southbound access onto the bridge from High Street and Mount Street, North Sydney would be diverted to the Falcon Street entry onto the Warringah Freeway.

#### Work hours

Our standard work hours are from **7am to 6pm** between **Mondays** and **Fridays**, and from **8am to 1pm** on **Saturdays**.

Our night work hours will be from **8pm to 5am**.

#### Noise

There will be some noise associated with this work. We will make every effort to minimise its impact by using less noisy work methods where possible and completing any noisier work before midnight.
