

Sydney Harbour Bridge – Cycleway Maintenance

The NSW Government is investing in essential work to maintain the cycleway across the Sydney Harbour Bridge.

Roads and Maritime Services will continue to carry out scheduled maintenance on the Sydney Harbour Bridge cycleway. The work will include removing old lead based paint and replacing it with lead free paint.

To minimise ongoing inconvenience to cyclists, we will complete this work at night when cyclist numbers on the Bridge are low. The cycleway will have a reduced speed limit and traffic control in place from **8pm to 4am** on three occasions:

- from **Sunday 21 October to Friday 26 October**
- from **Sunday 4 November to Friday 9 November**
- from **Sunday 18 November to Friday 23 November.**

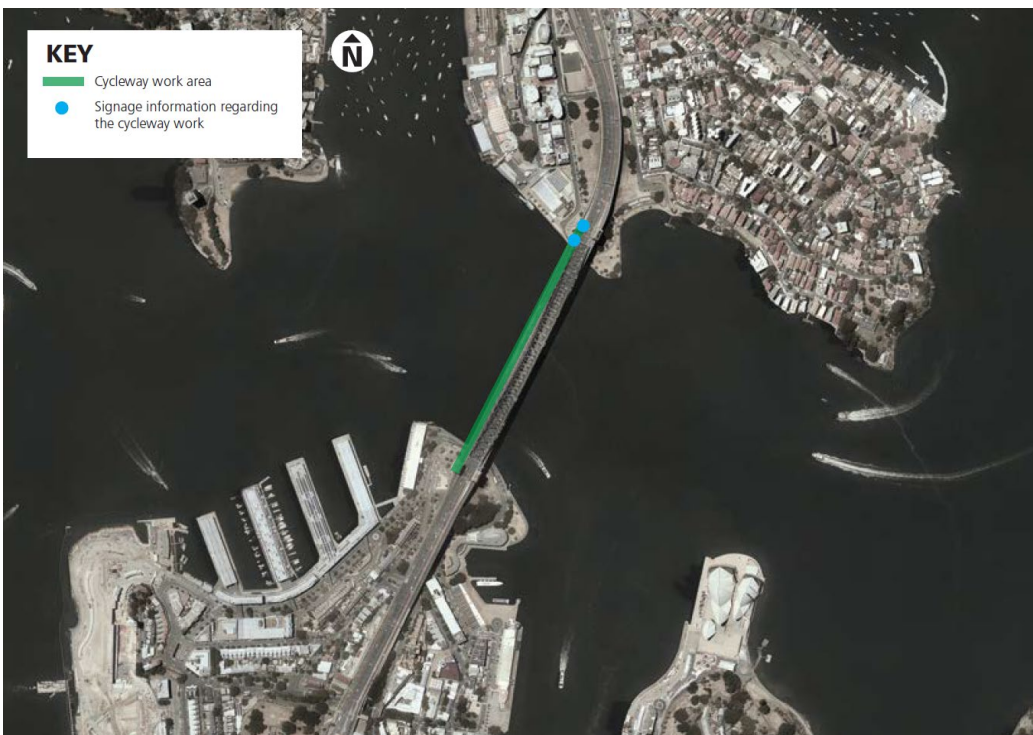

How will the work affect you?

During the work, traffic control will be set up on the cycleway and a 20 km/h speed limit will be in place. At times cyclists may be asked to stop or slow around the work area. Please follow the instructions of traffic controllers at all times.

There will be some noise associated with the work. We will make every effort to minimise noise by carrying out noisiest activities early in the shift and completing the work as quickly as possible.

There will be no changes for motorists or pedestrians during this time.
