

Sydney Olympic Park Wharf upgrade

The new Sydney Olympic Park Wharf viewed from the water – artist's impression for illustrative purposes.

The NSW Government is upgrading Sydney Olympic Park Wharf as part of the Transport Access Program.

It is expected work will start in late 2014 and construction will take about five months. Sydney Olympic Park Wharf will be closed during this period. All efforts will be made by the project team to reopen the wharf as soon as possible.

We will notify customers, local residents, local businesses and key stakeholders in advance of the temporary closure of the wharf.

The NSW Government is progressively upgrading ferry wharves across Sydney Harbour to improve Sydney's ferry service for passengers. The new wharf is being delivered as part of the NSW Government's \$770 million Transport Access Program – an initiative to deliver modern, safe and accessible transport infrastructure.

The upgraded wharf will provide:

- Improved safety for customers
- Improved access for mobility impaired customers and customers with prams
- Quicker and more efficient boarding and disembarking
- Future capacity for two ferries to berth at the same time.

We invite you to come along to a community information session at the Newington Community Centre on Tuesday 24 June 2014. Members of the project team will be available to provide further information about the project. You are welcome to drop in anytime between 5pm and 7pm at:

**Newington Community Centre, Main Hall,
Corner Avenue of Europe and Avenue of Asia,
Newington, Tuesday 24 June 2014**

If you would like further information about the Sydney Olympic Park Wharf upgrade you can:
