

# Sydney Olympic Park Wharf upgrade

JUNE 2014

## Overview

The existing Sydney Olympic Park Wharf viewed from the water.

**The NSW Government is upgrading Sydney Olympic Park Wharf. The new facility will improve safety and amenity for customers.**

The new wharf is being delivered as part of the NSW Government's \$770 million Transport Access Program – an initiative to deliver modern, safe and accessible transport infrastructure. The Transport Access Program has already delivered new facilities at Milsons Point, Neutral Bay, Rose Bay, Balmain Thames Street and Huntleys Point. Upgrades at Mosman Bay and Drummoyne wharves are currently under construction.

The upgraded wharf will provide:

- Improved safety for customers
- Improved access for mobility impaired customers and customers with prams
- Quicker and more efficient boarding and disembarking
- Future capacity for two ferries to berth at the wharf at the same time.

Work is expected to start in late 2014 and will take about five months to complete, weather and maritime conditions permitting. The existing wharf will be temporarily closed and no ferry services will operate to the wharf during the upgrade.

All efforts will be made by the project team to reopen the wharf as soon as possible.
