

New clearways on The Horsley Drive

Between Cumberland Highway, Smithfield and Hume Highway, Carramar

Project Update | August 2018

The NSW Government is funding this project as part of its \$121 million Clearways Program, which aims to reduce congestion and delays on Sydney's roads.

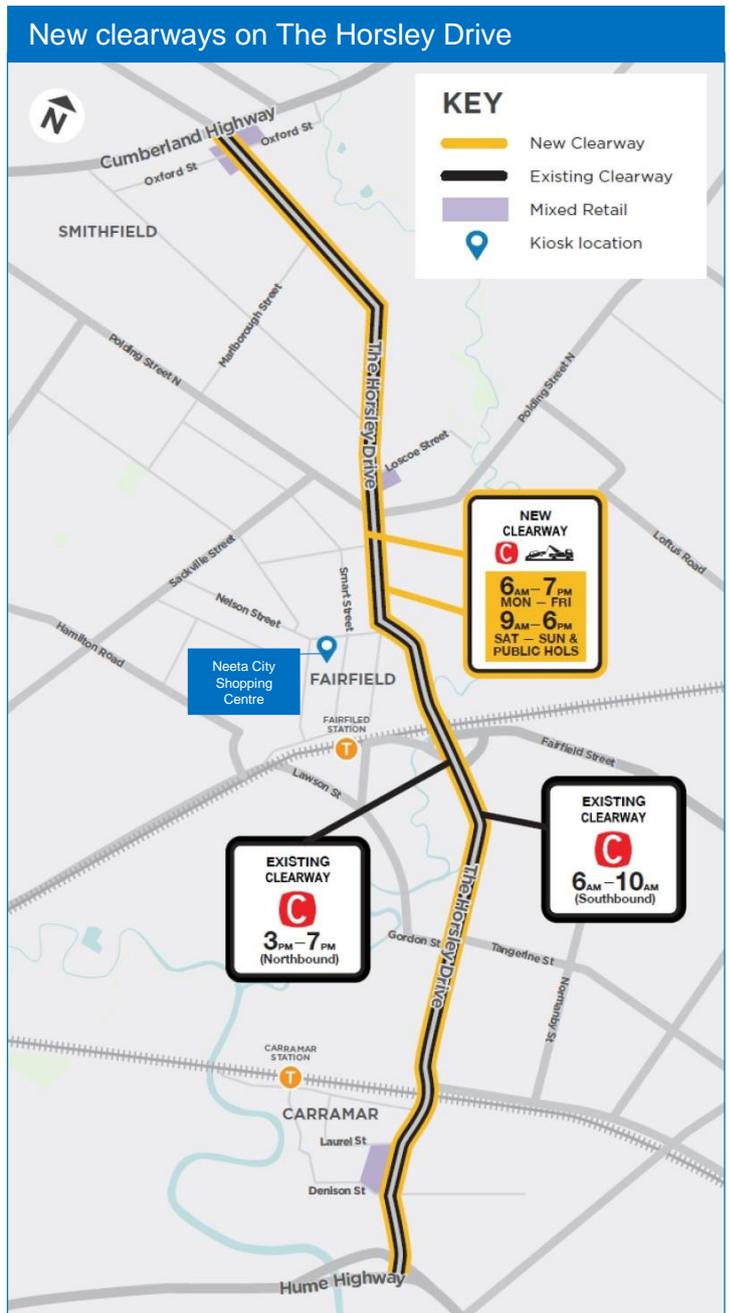

Roads and Maritime Services is working to reduce congestion and improve travel times on The Horsley Drive and will be installing new and extended clearways between Cumberland Highway, Smithfield and Hume Highway, Carramar.

Clearways help improve journey times by making an additional lane available to traffic during clearway hours, allowing drivers to get to their destination sooner. They have an immediate positive impact on traffic flow as existing road space is used for the movement of vehicles. Maximising road space for traffic movement improves the efficiency of intersections along the corridor as all lanes are used.

The new and extended clearways will improve journey times for 42,000 road users travelling on The Horsley Drive every day, which means less time in the car, and more time doing the things you enjoy.

We have included a map to show the clearway hours and location of the new clearways.

Existing 'No Parking' and 'No Stopping' parking restrictions and sections of unrestricted parking will continue to operate outside the clearway hours. Bus zones will continue to operate with no change.

What happens next?

We invite your feedback on alternate business parking by **Friday 17 August 2018**.

Please send your comments to clearways@rms.nsw.gov.au or call **1300 706 232**.

We will consider your feedback and update you as the project progresses.

Alternate business parking

Roads and Maritime investigated business parking along The Horsley Drive and identified that most businesses have on-site parking and there is sufficient side street parking at Oxford Street, Loscoe Street and Denison Street to meet business customer parking demand.

Talk to the clearways project team

On **Thursday 9 August**, the project team will be available to discuss the project at **Neeta City Shopping Centre, Fairfield** from **4pm to 7pm**. The information kiosk will be located outside Gloria Jeans in Neeta City Shopping Centre at 54 Smart Street, Fairfield. We invite you to come and speak to us about the new and extended clearways and alternate business parking.

As a resident or visitor, what does this mean for me?

The new clearways will change the ability to park or pick up and drop off family, friends and deliveries in front of properties along The Horsley Drive. If you currently live or visit this section of The Horsley Drive, you will need to reconsider where to park during the clearway hours.

If you do not have a driveway, garage or carport on your property, local side streets are available for you to park during the clearway hours subject to any council parking restrictions. Outside the clearway hours, existing parking restrictions will remain the same.

As clearways continue to be rolled out across Sydney, you, your family and friends will experience more efficient, safer, and more reliable journey times.

What is a clearway?

A clearway is a section of road where stopping and parking is not allowed during the times shown on the clearway sign. Clearways are put on key arterial roads where traffic is often heavy and congested. They help keep vehicles moving by making all lanes available to motorists. The only exception is the stopping of buses and taxis dropping off or picking up passengers as well as emergency vehicles.

The new clearways will help to improve traffic flow and reduce delays by removing parking and allowing us to tow vehicles that stop illegally or break down. If you park in a clearway during the clearway hours, you risk being fined and your vehicle can be towed.

To report a vehicle parked in a clearway or if your vehicle has been towed from a clearway, please call the Transport Management Centre on 131 700.

Contact us

If you have any questions or would like further information, please contact the Roads and Maritime Clearways project team:
