Dear Graham

**Approval of Addendum Ancillary Facility Assessment: Condition C9
Windsor Bridge Replacement Project (SSI 4951)**

I refer to your submission dated 26 February 2019 requesting approval of the Addendum Ancillary Facility Assessment (Addendum AFA) in accordance with Condition C9 of SSI 4951. I also acknowledge your response to the Department's review comments and submission of updated Addendum AFA, received on 9 May 2019.

I note that an Ancillary Facility Assessment is required to be prepared due to the proposed location of the ancillary site not meeting the criteria provided in condition C8. As the ancillary site is near an existing ancillary site, RMS has prepared this document as an addendum to the AFA the Planning Secretary approved on 8 August 2018 for the existing ancillary site.

I also note that RMS has determined the ancillary site is consistent with the project approval. I have reviewed the Addendum AFA and I consider that it meets the requirements of condition C9. Accordingly, I approve the establishment of the ancillary site at this location, as per the Addendum AFA, Rev C dated 8 May 2019.

Please ensure you make the Addendum AFA publicly available on the project website.

If you have any questions, please contact Jacqui McLeod on the details listed above.

Yours sincerely

 10-5-2019

Erica van den Honert
**Director – Infrastructure Management
Planning Services**
As delegate of the Planning Secretary
